Citizens expects that their vote is counted and secure. The vote is the most important duty and responsibility of the citizen to ensure a positive future for Texas and the US. If those in charge are lazy, uninterested or irresponsible, the citizen is left with corruption and fraud that leads to leaders who have not been chosen by the people. The citizens have seen the results of corruption over the years as the LBJ deceased voter scandal of over a half a century brings to mind. When corruption and fraud lead to success, it doesn't go away. It increases.

KEEP OUR ELECTIONS SAFE WITH STRONG CHAIN OF CUSTODY LAWS.

Texas Eagle Forum

Dallas, TX

Texas Eagle Forum supports securing electronic voting system media in the strongest way possible while Texas is still using electronic voting systems. The fatal flaw in the premise is the belief that electronic voting systems can be secured. They cannot. DOD cannot secure the air (wireless networks) nor can they secure their computers (even if they are isolated from the internet), so it is doubtful that any election system vendors could accomplish what the best in the world have yet to accomplish. We want hand marked paper ballots and hand counts for Central Count Tabulation.

It is very important that we provide proper security to election materials. Please Support this bill and vote it out of Committee and send it to the full House.

Voting is a privilege and it should not be altered manually or by electronics. What's going on in our Nation right now is very serious. The Democrats will stoop no level to gain power and ruin our Constitution and the Freedoms of the Legal Citizens in this country. I beg you to please protect the people of this state from the corruption of the democrats in the Whitehouse.
