3-20 Act, other than those sold as such, may be designated as spices,  
3-21 flavorings, and colors, without naming each; provided that, to the

3-31 artificial coloring, or chemical preservative, unless it bears  
3-32 labeling stating that fact; provided that, to the extent that

3-34 impracticable, exemptions shall be established by department  
3-35 rules. The provisions of this subsection and Subsections (h) and  
3-36 (j) with respect to artificial coloring do not apply in the case of  
3-37 butter, cheese, and ice cream;

3-42 in or on the commodity and the common or usual name and the function  
3-43 of the chemical, except that the declaration is not required while  
3-44 the commodity, after removal from the shipping container, is being  
3-45 held or displayed for sale at retail out of the container in  
3-46 accordance with the custom of the trade;

3-47 (n) if it is a product intended as an ingredient of  
3-48 another food and if used according to the directions of the purveyor  
3-49 will result in the final food product being adulterated or  
3-50 misbranded;

3-51 (o) if it is a color additive, unless its packaging and  
3-52 labeling are in conformity with the packaging and labeling  
3-53 requirements applicable to the color additive as may be contained  
3-54 in regulations issued under Section 721 of the federal Act;

3-55 (p) if its packaging or labeling is in violation of an

3-58 (q)(1) if it is a food intended for human consumption  
3-59 and is offered for sale, unless its label or labeling bears

3-62 customarily consumed and that is expressed in a common household  
3-63 measure that is appropriate to the food; or

4-3 (ii) derived from fat;

4-4 (D) the amount of total fat, saturated fat,

4-5 cholesterol, sodium, total carbohydrates, complex carbohydrates,

4-6 sugar, dietary fiber, and total protein contained in each serving

4-7 size or other unit of measure; and

4-8 (E) any vitamin, mineral, or other nutrient

4-9 required to be placed on the label and labeling of food under the

4-10 federal Act; or

4-11 (2)(A) if it is a food distributed at retail

4-12 in bulk display cases, or a food received in bulk containers, unless

4-13 it has nutrition labeling prescribed by the secretary; and

4-14 (B) if the secretary determines it is

4-15 necessary, nutrition labeling will be mandatory for raw fruits,

4-16 vegetables, and fish, including freshwater or marine finfish,

4-17 crustaceans, mollusks including shellfish, amphibians, and other

4-18 forms of aquatic animal life, except that:

4-19 (3)(A) Subdivisions (1) and (2) do not

4-20 apply to food:

4-21 (i) that is served in restaurants or

4-22 other establishments in which food is served for immediate human

4-23 consumption or that is sold for sale or use in those establishments;

4-24 (ii) that is processed and prepared

4-25 primarily in a retail establishment, that is ready for human

4-26 consumption, that is of the type described in Subparagraph (i),

4-27 that is offered for sale to consumers but not for immediate human

4-28 consumption in the establishment, and that is not offered for sale

4-29 outside the establishment;

4-34 or

4-35 (v) that is described in Section 405,

4-36 clause (2), of the federal Act;

4-37 (B) Subdivision (1) does not apply to the

4-38 label of a food if the secretary determines by regulation that

4-39 compliance with that subdivision is impracticable because the

4-40 package of the food is too small to comply with the requirements of

4-41 that subdivision and if the label of that food does not contain any

4-42 nutrition information;

4-43 (C) if the secretary determines that a food

4-44 contains insignificant amounts of all the nutrients required by

4-45 Subdivision (1) to be listed in the label or labeling of food, the

4-46 requirements of Subdivision (1) do not apply to the food if the

4-47 label, labeling, or advertising of the food does not make any claim

4-48 with respect to the nutritional value of the food, provided that if

4-49 the secretary determines that a food contains insignificant amounts

4-50 of more than half the nutrients required by Subdivision (1) to be in

4-51 the label or labeling of the food, the amounts of those nutrients

4-52 shall be stated in a simplified form prescribed by the secretary;

4-53 (D) if a person offers food for sale and has

4-54 annual gross sales made or business done in sales to consumers that

4-55 is not more than \$500,000 or has annual gross sales made or business

4-56 done in sales of food to consumers that is not more than \$50,000,

4-57 the requirements of this subsection do not apply to food sold by

4-58 that person to consumers unless the label or labeling of food

4-59 offered by that person provides nutrition information or makes a

4-60 nutrition claim;

4-61 (E) if foods are subject to Section 411 of

4-62 the federal Act, the foods shall comply with Subdivisions (1) and

4-63 (2) in a manner prescribed by the rules; and

4-64 (F) if food is sold by a food distributor,

4-65 Subdivisions (1) and (2) do not apply if the food distributor

4-66 principally sells food to restaurants or other establishments in

4-67 which food is served for immediate human consumption and the food

4-68 distributor does not manufacture, process, or repackage the food it

4-69 sells;

5-1 (r) if it is a food intended for human consumption and  
5-2 is offered for sale, and a claim is made on the label, labeling, or  
5-3 retail display relating to the nutrient content or a nutritional  
5-4 quality of the food to a specific disease or condition of the human  
5-5 body, except as permitted by Section 403(r) of the federal Act; or  
5-6 (s) if it is a food intended for human consumption and  
5-7 its label, labeling, and retail display do not comply with the

5-23 (b) A cell-cultured product must be labeled in prominent
