S.B. No. 670

A BILL TO BE ENTITLED

AN ACT

1
2 relating to patient authorization to access certain
3 investigational sun protection products.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

5 SECTION 1. (a) The legislature finds that:

6 (1) the process for the approval of investigational
7 sun protection products in the United States takes many years;

8 (2) some patients do not have the luxury of waiting
9 until an investigational sun protection product receives final
10 approval from the United States Food and Drug Administration;

11 (3) the standards of the United States Food and Drug
12 Administration for the use of investigational sun protection
13 products may deny patients the benefits of potentially life-saving
14 products;

15 (4) patients have a fundamental right to attempt to
16 preserve their health and lives by accessing available
17 investigational sun protection products;

18 (5) the use of available investigational sun
19 protection products is a decision the patient in consultation with
20 the patient's physician should make to preserve the patient's
21 health or life and is not a decision the government should make; and

22 (6) the decision to use an investigational sun
23 protection product should be made with full awareness of the
24 potential risks, benefits, and consequences to the patient.

1 (b) It is the intent of the legislature to allow patients
2 the option of using investigational sun protection products.

3 SECTION 2. Subtitle C, Title 6, Health and Safety Code, is
4 amended by adding Chapter 491 to read as follows:

5 CHAPTER 491. PATIENT ACCESS TO INVESTIGATIONAL SUN PROTECTION

6 PRODUCTS

7 SUBCHAPTER A. GENERAL PROVISIONS

8 Sec. 491.001. DEFINITION. In this chapter,
9 "investigational sun protection product" means a sun protection
10 product containing an ingredient that has successfully completed
11 phase one of a clinical trial but has not yet been approved for
12 general use by the United States Food and Drug Administration and
13 remains under investigation in the clinical trial.

14 SUBCHAPTER B. ELIGIBLE PATIENT ACCESS TO INVESTIGATIONAL SUN

15 PROTECTION PRODUCTS

16 Sec. 491.051. PATIENT ELIGIBILITY. A patient is eligible
17 to access and use an investigational sun protection product if the
18 patient's physician:

19 (1) in consultation with the patient, has considered
20 all other sun protection products currently approved by the United
21 States Food and Drug Administration and determined those products
22 are less effective in comparison to an investigational sun
23 protection product; and

24 (2) recommends or prescribes in writing an
25 investigational sun protection product for the patient.

26 Sec. 491.052. INFORMED CONSENT. (a) Before recommending
27 or prescribing an investigational sun protection product, a

1 physician must require an eligible patient to sign a written
2 informed consent form.

3 (b) If the patient is a minor or lacks the mental capacity to
4 provide informed consent, a parent or legal guardian may provide
5 informed consent on the patient's behalf.

6 (c) The Texas Medical Board by rule may adopt a form for the
7 informed consent required under this section.

8 Sec. 491.053. PROVISION OF INVESTIGATIONAL SUN PROTECTION
9 PRODUCT. (a) A manufacturer of an investigational sun protection
10 product may make available in accordance with this chapter and any
11 rules adopted under this chapter the manufacturer's product to
12 eligible patients who provide to the manufacturer the informed
13 consent required under Section 491.052.

14 (b) This chapter does not require a manufacturer to make
15 available an investigational sun protection product to an eligible
16 patient.

17 (c) A manufacturer may:

18 (1) provide an investigational sun protection product
19 to an eligible patient without receiving compensation; or

20 (2) require an eligible patient to pay the
21 manufacturer's costs of, or costs associated with, the manufacture
22 of the product.

23 Sec. 491.054. NO CAUSE OF ACTION CREATED. This chapter does
24 not create a private or state cause of action against a manufacturer
25 of an investigational sun protection product or against any other
26 person or entity involved in the care of an eligible patient using
27 the product for any harm to the eligible patient resulting from the

1 product.

2 Sec. 491.055. STATE MAY NOT INTERFERE WITH ACCESS TO
3 INVESTIGATIONAL SUN PROTECTION PRODUCTS. An official, employee, or
4 agent of this state may not block or attempt to block an eligible
5 patient's access to an investigational sun protection product under
6 this chapter.

7 SUBCHAPTER C. HEALTH INSURANCE

8 Sec. 491.101. EFFECT ON HEALTH CARE COVERAGE FOR CLINICAL
9 TRIAL ENROLLEES. This chapter does not affect the coverage of
10 enrollees in clinical trials under Chapter 1379, Insurance Code.

11 SUBCHAPTER D. PHYSICIANS

12 Sec. 491.151. PROHIBITED ACTION AGAINST PHYSICIAN'S
13 LICENSE. Notwithstanding any other law, the Texas Medical Board
14 may not revoke, fail to renew, suspend, or take any action against a
15 physician's license under Subchapter B, Chapter 164, Occupations
16 Code, based solely on the physician's recommendation to or
17 prescription for an eligible patient regarding access to an
18 investigational sun protection product, provided the
19 recommendation or prescription for the patient meets the medical
20 standard of care and the requirements of this chapter.

21 SECTION 3. This Act takes effect immediately if it receives
22 a vote of two-thirds of all the members elected to each house, as
23 provided by Section 39, Article III, Texas Constitution. If this
24 Act does not receive the vote necessary for immediate effect, this
25 Act takes effect September 1, 2025.
