6 ~~settlement, including any statutory interest thereon or any costs~~  
7 ~~and attorney fees awarded by court order, that would cause the~~  
8 ~~aggregate amount paid to, or on behalf of, an individual or entity~~  
9 ~~pursuant to this provision during the biennium beginning September~~  
10 ~~1, 2003, to exceed \$250,000. Any claim that is in excess of the~~  
11 ~~limitation established by this subsection "d" shall be presented to~~  
12 ~~the legislature for a specific appropriation in order for payment~~  
13 ~~to be made.~~

6 vehicles or diesels by at least five percent from fiscal year 2002  
7 consumption levels through the use of cost-effective proven  
8 fuel-saving technologies.

9 (c) A state agency may delay reducing fuel use as described  
10 in this section until a list of proven fuel-saving technologies is  
11 provided by the state energy conservation office as provided by  
12 Section 447.011.

13 (d) A state agency may not purchase or use as a fuel-saving  
14 technology a technology that:

15 (1) is known to increase oxides of nitrogen emissions  
16 or toxic air contaminants;

17 (2) may be reasonably concluded to degrade air quality  
18 or human health or to negatively impact the environment; or

19 (3) is known to affect negatively the manufacturer's  
20 warranty of a motor vehicle or a non-road diesel.

21 (e) A state agency may purchase cost-effective proven  
22 fuel-saving technologies out of the agency's fuel budget.

23 (f) A state agency shall competitively evaluate similar  
24 fuel-saving technologies.

25 (g) A state agency may require a seller of a fuel-saving  
26 technology to refund the cost of the technology if it is determined  
27 to be ineffective at reducing fuel use by at least five percent

1 before the 91st day after the date the technology is first used by  
2 the agency.

3 (h) A state agency may use fuel-saving technologies that the  
4 agency determines are cost-effective and may use a fuel-saving  
5 technology in applications that provide other benefits, including  
6 emissions reductions.

7 (i) A state agency may establish a program for agency  
8 employees to voluntarily:

9 (1) purchase fuel-saving technologies; and

10 (2) document reductions in fuel savings and air

13 conservation office on a form provided by the office on the state  
14 agency's efforts and progress under this section.

15 (k) This section does not apply to an institution of higher  
16 education as defined by Section 61.003, Education Code.

17 Sec. 447.011. FIELD DEMONSTRATIONS. (a) Under the  
18 direction of the state energy conservation office, the Texas  
19 Department of Transportation shall demonstrate the effectiveness  
20 of at least four fuel-saving technologies on a combined maximum of  
21 100 motor vehicles or non-road diesels in accordance with this  
22 section to determine the fuel-saving technologies that may  
23 cost-effectively reduce fuel consumption and save state revenue.

24 (b) Varying ages and types of motor vehicles and non-road  
25 diesels shall be selected to demonstrate the fuel-saving  
26 technologies. Preference shall be given to high-use motor vehicles  
27 and non-road diesels in the selection.

1           (c) The Texas Department of Transportation shall  
2 demonstrate the performance of fuel-saving technologies by:

3           (1) assessing a technology's performance in the normal  
4 course of operations of motor vehicles or non-road diesels; and

5           (2) performing controlled field tests.

6           (d) In selecting the technologies to be evaluated, the state  
7 energy conservation office shall:

8           (1) consult with governmental and business  
9 organizations that are currently using fuel-saving technology;

10           (2) consider technologies that are proven fuel-saving  
11 technologies that have demonstrated fuel economy benefits of five  
12 percent or more in field tests or recorded use data of government  
13 organizations or businesses that operate fleets; and

14           (3) determine whether each technology selected has the  
15 potential to be cost-effective.

16           (e) A fuel-saving technology may be disqualified from being  
17 demonstrated or used if it is known to reduce engine performance,  
18 reduce the life of the engine, require additional maintenance  
19 expenses, or degrade air quality.

20           (f) The Texas Council on Environmental Technology, The  
21 University of Texas Center for Transportation Research, the  
22 University of Houston Diesel Emissions Center, or another agency  
23 may be designated to assist with executing the demonstration,  
24 compiling the results, estimating the potential average fuel  
25 savings of the technologies in different applications, or preparing  
26 a final report.

27           (g) On completing the demonstration described by this

1 section, the state energy conservation office shall rank the  
2 fuel-saving technologies based on their fuel savings, other cost  
3 savings, and overall cost-effectiveness. The office shall:

4 (1) list recommended applications of the  
5 technologies;

6 (2) document other negative or positive effects; and

7 (3) prepare a concise report of these findings.

8 (h) The Texas Council on Environmental Technology shall  
9 obtain information on any fuel-saving technology that appears to  
10 reduce particulate matter, oxides of nitrogen, carbon monoxide, or  
11 hydrocarbon emissions. The Texas Council on Environmental  
12 Technology may use this information to fund the Environmental  
13 Protection Agency verification of a technology in accordance with  
14 Section 387.003, Health and Safety Code.

15 (i) The state energy conservation office shall provide the  
16 report prepared under Subsection (g) to each state agency with 10 or  
17 more motor vehicles or non-road diesels and to the Legislative  
18 Budget Board.

19 (j) The demonstration and associated reports described by  
20 this section shall be completed not later than September 1, 2004.

22 section shall be made public on the state energy conservation  
23 office's Internet website.

24 (l) The state energy conservation office shall provide  
25 quarterly an updated list of all proven fuel-saving technologies on  
26 its Internet website.

27 (m) Money from the state highway fund may not be used for the

1 purchase, installation, maintenance, or operation of the  
2 fuel-saving technologies being assessed or subjected to controlled  
3 field tests under this section. Repairs to state equipment  
4 resulting from demonstrations of fuel-saving technologies must be  
5 paid from the same funds used to implement this section.

21 energy or water consumption or to reduce operating costs of  
22 governmental facilities.

23 (b) Before a state agency may use appropriated money to make  
24 a capital expenditure for a state facility purpose, the state  
25 agency must determine whether the expenditure could be financed  
26 with money generated by a utility cost savings contract.

27 (c) If it is practicable to do so, a state agency that is

1 using appropriated money must finance a capital expenditure for a  
2 state facility purpose with money generated by a utility cost  
3 savings contract.

4 (d) If it is not practicable for a state agency that is using  
5 appropriated money to finance a capital expenditure for a state  
6 facility purpose with money generated by a utility cost savings  
7 contract, the state agency must provide justification to the  
8 comptroller for the capital expenditure.

9 (e) In determining under Subsection (b) whether a capital  
10 expenditure could be financed by a utility cost savings contract, a  
11 state agency must consider whether utility cost savings generated  
12 by any department of that agency could be a potential means of  
13 financing a capital expenditure for any department of that agency.  
14 Money generated by a utility cost savings in one department of a  
15 state agency may be used to finance capital expenditures for a state  
16 facility purpose in any department of that agency.

17 (f) This section does not apply to an institution of higher  
18 education as defined by Section 61.003, Education Code.

19 (g) This section does not apply to a capital expenditure for  
20 a state facility purpose that requires expeditious action to:

21 (1) prevent a hazard to life, health, safety, welfare,  
22 or property; or

23 (2) avoid undue additional cost to the state.

24 (h) The Texas Building and Procurement Commission shall  
25 appoint a task force to develop design recommendations that are to  
26 be used for state facilities and that encourage rain harvesting and  
27 water recycling by state agencies using appropriated money to

1 finance a capital expenditure for a state facility purpose.
