

Amend HB 759 on third reading in Section 101.034, Human Resources Code, as added by the bill, at the end of the section, by inserting Subsection (e) to read as follows:

(e) The department or, under the direction of the department, a contractor of the department under this section shall notify each passenger, at or before the time the passenger boards a vehicle providing transportation service under this section, that:

(1) a prescription medication purchased for personal use in the United Mexican States may be brought into the United States only if obtained directly from, or pursuant to a valid prescription from, a physician permitted in the physician's jurisdiction to dispense the medication; and

(2) to bring the medication into the United States the passenger must have a copy of the prescription or evidence of the prescription on the bottle or other container in which the medication is transported.
