

Amend CSHB 2292 as follows:

SECTION 2.06. On page 65, line 1, after the "." insert

(g) In performing the duties under this section, the commission may design and implement a program to improve and monitor clinical and functional outcomes of a recipient of services under the state child health plan or medical assistance program. The program may use financial, clinical, and other criteria based on pharmacy, medical services, and other claims data related to the child health plan or the state medical assistance program. The commission must report to the committee on the fiscal impact, including any savings associated with the strategies utilized under this section.
