(b) A word or phrase that is not defined by this chapter but is defined by Section 502.001 has the meaning in this chapter that is assigned by that section.

Sec. 504.002. PROVISIONS OF GENERAL APPLICABILITY. Unless expressly provided by this chapter or by department rule:

(1) any vehicle is eligible to be issued specialty license plates, provided that the department may vary the design of a license plate to accommodate or reflect its use on a motor vehicle other than a passenger car or light truck;

(2) an application for specialty license plates must be submitted in the manner specified by the department, provided that if issuance of a specialty license plate is limited to particular persons or motor vehicles, the application must be accompanied by evidence satisfactory to the department that the applicant or the applicant's vehicle is eligible;

(3) the fee for issuance of a specialty license plate is in addition to each other fee that is paid for or at the time of the registration of the motor vehicle and shall be deposited to the credit of state highway fund;

(4) each fee described by this chapter is an annual fee, provided that the department may prorate the fee for a specialty license plate fee on a monthly basis to align the license plate fee to the registration period for the motor vehicle for which the license plate was issued, and if a fee is prorated, the allocation of the fee by this chapter to an account or fund shall be prorated in proportion;

(5) the department is the exclusive owner of the design of each specialty license plate;

(6) the director may refuse to issue a specialty license plate with a design or alphanumeric pattern that the director considers potentially objectionable to one or more members of the public and the director's refusal may not be overturned in the absence of an abuse of discretion;

(7) for each specialty license plate that is issued through a county tax assessor-collector and for which the department is allocated a portion of a fee for administrative costs, the department shall credit 50 cents from its administrative costs to the county treasurer of the applicable county, who shall credit the money to the general fund of the county to defray the costs to the county of administering this chapter;

(8) if a specialty license plate is lost, stolen, or mutilated, an application for a replacement plate must be accompanied by the fee prescribed by Section 502.184(a)(2);

(9) if the owner of a motor vehicle for which a specialty license plate is issued disposes of the vehicle or for any reason ceases to be eligible for that specialty license plate, the owner shall return the specialty license plate to the department; and

(1) \$20 shall be deposited to the credit of the state highway fund; and

(2) the remainder shall be deposited to the credit of the general revenue fund.

(d) A souvenir license plate may not be used on a motor vehicle, including a motorcycle, and is not an insignia of registration for a motor vehicle. Each souvenir license plate must

SUBCHAPTER I. DEVELOPMENT OF NEW SPECIALTY LICENSE PLATES

Sec. 504.801. CREATION OF NEW SPECIALTY LICENSE PLATES BY THE DEPARTMENT. (a) The department may create new specialty license plates on its own initiative or on receipt of an application from a potential sponsor. A new specialty license plate created under this section must comply with each requirement of Section 504.702 unless the license is created by the department on its own initiative. The department may permit a specialty license plate created under this section to be personalized. The redesign of an existing specialty license plate at the request of a sponsor shall be treated like the issuance of a new specialty license plate, except that the department may require a lower deposit amount to reflect the actual costs of redesigning the license plate.

(b) Any person may sponsor a new specialty license plate by submitting an application to the department. An application may nominate a state agency to receive funds derived from the issuance of the license plates. The application may also identify uses to which those funds should be appropriated.

(c) The department shall design each new specialty license plate in consultation with the sponsor, if any, that applied for creation of that specialty license plate. The department may refuse to create a new specialty license plate if the design might be offensive to any member of the public, if the nominated state

agency does not consent to receipt of the funds derived from issuance of the license plate, if the uses identified for those funds might violate a statute or constitutional provision, or for any other reason established by rule. At the request of the sponsor, distribution of the license plate may be limited by the department.

(d) The fee for issuance of license plates authorized under this subchapter is \$30.

(e) For each fee collected:

(1) \$8 shall be used to reimburse the department for its administrative costs; and

(2) the remainder shall be deposited to the credit of:

(A) the specialty license plate fund, an account in the general revenue fund, if the sponsor nominated a state agency to receive the funds; or

(B) the state highway fund if the sponsor did not nominate a state agency to receive the funds or if there is no sponsor.

(f) Subchapter D, Chapter 316, Government Code, and Section 403.095, Government Code, do not apply to fees collected under this section.

(h) The department may license a trademark for inclusion within the design of the plates and may pay a fee for the trademark license. If a fee is paid for the trademark license, the fee shall be paid from the amount deposited under subsection (e)(2).

(i) The department may vary the design of a license plate created under this section to accommodate or reflect its use on a motor vehicle other than a passenger car or light truck.

(j) The sponsor of a new specialty license plate may not be a for-profit entity.

SUBCHAPTER J. MARKETING OF SPECIALTY

PLATES THROUGH PRIVATE VENDOR

Sec. 504.851. CONTRACT WITH PRIVATE VENDOR. (a) The Texas Transportation Commission may authorize the department to enter into a contract with the private vendor whose proposal is most advantageous to the state as determined from competitive sealed proposals for the marketing and sale of:

(1) personalized prestige license plates authorized by Section 504.101; or

(2) other specialized license plates authorized by this subchapter.

(b) Instead of the fees established by Section 504.101(c), if the Texas Transportation Commission authorizes the department to contract with a private vendor under Subsection (a)(1) for the marketing and sale of personalized prestige license plates, the commission by rule shall establish fees for the issuance or renewal of personalized prestige license plates that are marketed and sold by the private vendor. Fees must be reasonable and not less than the greater of:

(1) the amounts necessary to allow the department to recover all costs to the department associated with the evaluation of the competitive sealed proposals received by the department and with the implementation and enforcement of the contract, including direct, indirect, and administrative costs; or

(2) the amount established by Section 504.101(c).

(c) If the Texas Transportation Commission authorizes the department to contract with a private vendor under Subsection (a)(2) for the marketing and sale of other specialized license plates authorized by this subchapter, including specialized license plates that may be personalized, the commission by rule shall establish the fees for the issuance or renewal of specialized license plates that are marketed and sold by the private vendor. Fees must be reasonable and not less than the amounts necessary to allow the department to recover all costs to the department associated with the evaluation of the competitive sealed proposals received by the department and with the implementation and enforcement of the contract, including direct, indirect, and administrative costs. A fee established under this subsection is

in addition to:

(1) the registration fee and any optional registration fee prescribed by this chapter for the vehicle for which the specialized license plates are issued;

(2) any additional fee prescribed by this subchapter for the issuance of the specialized license plates for that vehicle; and

(3) any additional fee prescribed by this subchapter for the issuance of personalized special license plates for that vehicle.

(d) At any time, as necessary to comply with Subsection (b) or (c), the Texas Transportation Commission may increase or decrease the amount of a fee established under the applicable subsection.

(e) A contract with a private vendor under Subsection (a)(1) is payable only from amounts derived from the collection of the fee established under Subsection (b). A contract with a private vendor under Subsection (a)(2) is payable only from amounts derived from the collection of the fee established under Subsection (c).

(f) The department may create new design and color combinations for personalized prestige license plates that are marketed or sold by a private vendor under a contract entered into under Subsection (a)(1). Each approved license plate design and color combination remains the property of the department.

(g) The department may create new design and color combinations for specialized license plates, including specialized license plates that may be personalized, that are marketed or sold by a private vendor under a contract entered into under Subsection (a)(2). Each approved license plate design and color combination remains the property of the department. This subsection does not authorize:

(1) the department to approve a design or color combination for a specialized license plate that is inconsistent with the design or color combination specified for the license plate by the section of this subchapter that authorizes the issuance of the specialized license plate; or

(2) the private vendor to market or sell a specialized

license plate with a design or color combination that is inconsistent with the design or color combination specified by that section.

(h) In connection with a license plate that is marketed or sold by a private vendor under contract, the department may cancel a license plate or require the discontinuation of a license plate design or color combination at any time if the department determines that the cancellation or discontinuation is in the best interest of this state or the motoring public.

(i) A contract entered into by the department with a private vendor under this section:

(1) must comply with any law generally applicable to a contract for services entered into by the department;

(2) must require the private vendor to render at least quarterly to the department periodic accounts that accurately detail all material transactions, including information reasonably required by the department to support fees that are collected by the vendor, and to regularly remit all money payable to the department under the contract; and

(3) may allow or require the private vendor to establish an electronic infrastructure coordinated and compatible with the department's registration system, by which motor vehicle owners may electronically send and receive applications, other documents, or required payments, and that, when secure access is necessary, can be electronically validated by the department.

(j) From amounts received by the department, the department shall deposit to the credit of the state highway fund an amount sufficient to enable the department to recover its administrative costs for all license plates issued under this section, including any payments to the vendor under Subsection (a), and any other amounts allocated to the state highway fund by another law. To the extent that disposition of other amounts received from the vendor are governed by another law, those amounts shall be deposited in accordance with the other law, and for each type of license plate, the amount charged for the license plate may not be less than the amount in effect on January 1, 2003. Any additional amount received from the vendor shall be deposited to the credit of the general

revenue fund.

(k) The Texas Transportation Commission may authorize the department to pay a licensing fee for the use of a trademark in connection with the marketing and sale of a license plate under this section.

(2) a resident of an adjoining state or country from operating in this state a privately owned and registered vehicle to go to and from the person's place of regular employment and to make trips to purchase merchandise, if the vehicle is not operated for compensation.
