

Amend CSSB 1952 as follows:

(1) In the heading to ARTICLE 3A of the bill (House Committee Printing page 68, line 22), strike "FUEL" and substitute "ENERGY".

(2) In the recital to SECTION 3A.01 of the bill (House Committee Printing page 68, line 25), strike "447.012 and 447.013" and substitute "447.012, 447.013, and 447.014".

(3) At the end of SECTION 3A.01 of the bill (House Committee Printing page 74, following line 2) add the following:

Sec. 447.014. REDUCTION OF ENERGY CONSUMPTION BY AIR CONDITIONING AND REFRIGERATION EQUIPMENT OF STATE AGENCIES. (a) If an additive is shown in tests conducted by the state energy conservation office to reduce energy consumption by air conditioning and refrigeration equipment by at least 10 percent, each state agency shall initiate efforts to use the additive to reduce energy consumption by the agency's air conditioning and refrigeration equipment. An additive used to achieve this reduction must meet the following criteria:

(1) the additive must have been shown in tests conducted by the state energy conservation office to reduce energy consumption by air conditioning and refrigeration equipment by at least 10 percent;

(2) the provider of the technology must enter into an energy service agreement to pay for the deployment at no net cost to the state;

(3) the payback on the cost of deployment must be achieved, through the reduction in energy consumption, in 24 months or less; and

(4) the additive must be environmentally safe and comply with 40 C.F.R. Sections 261.22, 268.3, and 279.10 and 40 C.F.R. Part 261 Appendix VIII as those regulations existed on September 1, 2003.

(b) Each state agency shall consult the state energy conservation office regarding the deployment of an additive to reduce energy consumption by the agency's air conditioning and refrigeration equipment.
