DIGEST AND PURPOSE

Current Section 251.009(a), Transportation Code, permits a county with a population of less than 60,000 to construct cattle guards on county roads. However, this section prevents counties with 60,000 or more residents from replacing existing cattle guard, which has become a danger to the public. S.B. 132 amends the Transportation Code to allow a county commissioners court to replace or repair any existing cattle guard on a county road.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
