DIGEST AND PURPOSE

Under current law, a motor vehicle may only be equipped with video receiving equipment, such as a television, if the equipment is located so that the video display is not visible from the operator's seat. This provision does not cover newer technology, such as videocassette players or digital video disc players. S.B. 209 adds digital video disc players and videocassette players to those devices that can be used in a motor vehicle only if the equipment's video display is not visible from the vehicle operator's seat. In addition, S.B. 209 creates an exception for video displays used to monitor equipment related to servicing natural gas, water, or electric utilities.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION BY SECTION ANALYSIS

SECTION 1. Amends the heading of Section 547.611, Transportation Code, to read as follows:

Sec. 547.611. USE OF CERTAIN VIDEO EQUIPMENT AND TELEVISION RECEIVERS.

SECTION 2. Amends Sections 547.611(a) and (c), Transportation Code, as follows:

(a) Authorizes a motor vehicle to be equipped with video receiving equipment, including a television, a digital video disc player, a videocassette player or similar equipment, only if the display is not visible from the operator's seat.

(c) Exempts equipment used exclusively for monitoring the performance of equipment installed on a vehicle used for safety purposes in connection with the operations of certain utilities. Makes conforming changes.

SECTION 3. Effective date: September 1, 2003.

Makes application of this Act prospective.
