DIGEST AND PURPOSE

Currently, the Records Management Interagency Coordinating Council (RMICC), established to report on records management issues within the state government, lacks access to research opportunities in higher education and access to expertise on electronic records management. As the state government transitions from paper to an electronic environment of record keeping, it is necessary for its record managers to have adequate knowledge of electronic records. S.B. 394 expands the membership of the RMICC to include one faculty member of a public senior college or university and two individuals who serve as information resource managers for state agencies in the executive branch of government. Adding a faculty member and two individual experts in electronic record keeping will give RMICC access to research opportunities in the academic setting and provide knowledgeable guidance on proper electronic records management.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION BY SECTION ANALYSIS

SECTION 1. Amends Section 441.203, Government Code, by amending Subsections (a), (b), and (d)-(j) and adding Subsections (a-1), (a-2), (a-3), and (k), as follows:
