DIGEST AND PURPOSE

Currently, Texas is divided into twenty-two trauma service areas serviced by area regional advisory councils (RACs). RACs are formal organizations chartered by the Texas Department of Health's (TDH) Bureau of Emergency Management to develop and implement trauma services in a given region. To address the uniqueness of each area, RAC boards are comprised of local EMS stakeholders. S.B. 530 would allow TDH more formal control of the RACs by requiring TDH to develop performance measures for the RACs.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
