### **DIGEST AND PURPOSE**

Insurance companies operating in Texas are required to file financial statements with the National Association of Insurance Commissioners (NAIC). NAIC charges a filing fee to cover the cost of maintaining the information in a database. Current law requires the Texas Department of Insurance (TDI) to collect the fee from insurance companies for remittal to NAIC. TDI is required to pay the difference between the amount appropriated for this purpose and the actual cost of the database. S.B. 637 requires insurance companies to pay the database fee directly to NAIC.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
