Committee Report (Substituted)

DIGEST AND PURPOSE

Currently, many Texas veterans are not aware of the programs and benefits to which they are entitled. The Texas Veterans Commission (TVC) is aware of this problem, but does not have the resources to survey target populations. Additionally, needs change as the population ages. TVC files increasing numbers of claims each year, indicating a growing financial need among Texas veterans and a growing need to more effectively disseminate information on programs and benefits to eligible veterans. C.S.S.B. 655 requires the Department of Information Resources to create and maintain a TexasOnline veterans website containing information on state and federal veterans benefits programs and the ability to file for selected benefits. C.S.S.B. 655 also directs TVC to create and distribute electronic and printed copy versions of a state veterans benefits booklet and facilitate the electronic initiation of veterans benefits by county veterans services county officers. Also included is the requirement that all state agency employment-related forms include a statement regarding the required goal of an agency workforce composed of at least 40 percent veterans.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
