### DIGEST AND PURPOSE

Under current Texas law, no single Internet resource exists to provide students, school districts, teachers, parents, and others across the state with educational tools and information. As proposed, S.B. 699 requires the Texas Education Agency (TEA) to establish and maintain an education Internet portal that would provide, among other things, on-line classes, academic texts, and administrative tools for use by students, parents, and educators with the intent of providing a wider range of educational resources to more students. In addition, S.B. 699 provides funding for the portal from the Texas Infrastructure Fund as well as from fees charged to some of the portal's users.

### RULEMAKING AUTHORITY

Rulemaking authority is expressly granted to the commissioner of education in SECTION 1 (Section 32.162., Education Code) of this bill.
