

## **BILL ANALYSIS**

S.B. 703  
By: Jackson  
Elections  
Committee Report (Unamended)

### **BACKGROUND AND PURPOSE**

Under current law, election precincts may contain no more than 2,000 registered voters. The great number of election precincts in each county creates a fiscal burden for those conducting elections and an administrative burden for election administrators. Senate Bill 703 uniformly provides for a maximum of 5,000 registered voters per county election precinct.

### **RULEMAKING AUTHORITY**

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.

### **ANALYSIS**

Senate Bill 703 amends the Election Code by providing that a county election precinct must contain at least 100 but not more than 5,000, rather than 2,000, registered voters. The bill repeals provisions relating to the maximum number of registered voters in a precinct for counties of varying sizes.

### **EFFECTIVE DATE**

September 1, 2003.
