DIGEST AND PURPOSE

Currently, Texas law allows member of the state military forces, but not federal vehicles, to travel free of charge on toll roads, bridges, or ferries. The law also provides a penalty for seeking free passage to which a state military member is not entitled. The increased usage of unmanned toll facilities and differing identification styles among military branches require increased flexibility on the part of the governing bodies of toll roads, bridges, and ferries.

S.B. 903 requires the Texas Transportation Commission and the governing body of each local governmental entity or private entity that operates a toll project to adopt rules to allow a military vehicle to use toll projects without payment of a toll or fare. This bill also repeals Section 431.087, Government Code (Duty Travel).
