DIGEST AND PURPOSE

Current Texas law allows surviving spouses of certain public safety employees of political subdivisions of the state to purchase continued health benefits from the political subdivision upon the employee's death. The current statute specifically includes a self-insured plan under this provision, but does not address fully insured plans. S.B. 959 specifically authorizes surviving spouses of certain high-risk employees to purchase continued health insurance coverage provided through a health insurance policy or health benefit plan written by a health insurer, in addition to self-insured health benefits plans.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
