11 program for career and technology education.

12 (b) The agreement is not effective unless the commissioner

18 per student that exceeds the equalized wealth level to make
19 expenditures benefiting students from other districts in an amount

24 training.

25 SECTION 10. It is the intent of the legislature that public
26 schools provide career and technology education by teaching
27 fundamental academic skills and providing practical, hands-on

1 learning experiences. Career and technology education should not
2 include mandatory career-tracking for students or result in
3 professional certification instead of receipt of a high school
4 diploma. The purpose of career and technology education is to
