In implementing cost-sharing provisions required by this subsection, the department may not require a pharmacy participating in the vendor drug program to collect copayments or other cost-sharing payments from recipients for remittance to the department, but shall allow the pharmacy to retain the payments as a component of the reimbursement provided to the pharmacy under the program.

8 entity's health plan.

9 SECTION 4. Subchapter B, Chapter 32, Human Resources Code,  
10 is amended by adding Sections 32.057, 32.061 and 32.062 to read as

8 necessary to monitor potential toxicity of therapy.

9 (c) The department shall establish the demonstration

11 infection and AIDS. The department shall ensure that the  
12 demonstration project is financed using funds made available by the  
13 counties in which the department establishes the demonstration  
14 project. The manner in which a county makes funds available may  
15 include an option for the county to be able to certify the amount of  
16 funds considered available instead of sending the funds to the

18 (d) A person is eligible to participate in the demonstration  
19 project if the person:

20 (1) has been diagnosed with HIV infection or AIDS by a

6 demonstration project is determined.

7 (e) Participation in the demonstration project does not  
8 entitle a participant to other services provided under the medical  
9 assistance program.

10 (f) The department shall establish an appropriate  
11 enrollment limit for the demonstration project and may not allow  
12 participation in the project to exceed that limit. Once the limit  
13 is reached, the department:

14 (1) shall establish a waiting list for enrollment in  
15 the demonstration project; and

18 department.

19 (g) The department shall ensure that a participant in the  
20 demonstration project is also enrolled in the HIV medication  
21 program operated by the department.

22 (h) Notwithstanding any other provision of this section,  
23 the department shall provide each participant in the project with a  
24 six-month period of continuous eligibility for participation in the

3 (j) Not later than December 1, 2008, the department shall

5 including whether the services and medications provided offset  
6 future higher costs for project participants. If the results of the  
7 evaluation indicate that the project is cost-effective, the  
8 department shall incorporate a request for funding for the  
9 expansion of the project into additional counties or throughout the  
10 state, as appropriate, in the department's budget request for the  
11 next state fiscal biennium.

12 (k) This section expires September 1, 2014.

15 demonstration project to provide to a person through the medical  
16 assistance program psychotropic medications and related laboratory  
17 and medical services necessary to conform to a prescribed medical  
18 regime for those medications.

19 (b) A person is eligible to participate in the demonstration  
20 project if the person:

21 (1) has been diagnosed as having a mental impairment,  
22 including schizophrenia or bipolar disorder, that is expected to  
23 cause the person to become a disabled individual, as defined by  
24 Section 1614(a) of the federal Social Security Act (42 U.S.C.  
25 Section 1382c), as amended;

26 (2) is at least 19 years of age, but not more than 64

9 otherwise provided by this section, the department may contract for  
10 the provision of eligibility services for the demonstration project  
11 with a local mental health authority.

12           (d) Notwithstanding any other provision of this section,  
13 the department shall provide each participant in the demonstration  
14 project with a 12-month period of continuous eligibility for  
15 participation in the project.

16           (e) Participation in the demonstration project does not  
17 entitle a participant to other services provided under the medical  
18 assistance program.

19           (f) The department shall establish an appropriate  
20 enrollment limit for the demonstration project and may not allow  
21 participation in the project to exceed that limit. Once the limit  
22 is reached, the department shall establish a waiting list for  
23 enrollment in the demonstration project.

24           (g) To the extent permitted by federal law, the department  
25 may require a participant in the demonstration project to make

2 (i) Not later than December 1 of each even-numbered year,  
3 the department shall submit a biennial report to the legislature  
4 regarding the department's progress in establishing and operating  
5 the demonstration project.

6 (j) Not later than December 1, 2008, the department shall  
7 evaluate the cost-effectiveness of the demonstration project,  
8 including whether the preventive drug treatments and related  
9 services provided under the project offset future long-term care  
10 costs for project participants. If the results of the evaluation  
11 indicate that the project is cost-effective, the department shall  
12 incorporate a request for funding for the continuation of the  
13 program in the department's budget request for the next state
