Fiscal Analysis

The bill would amend Chapter 152 of the Tax Code to exempt from the motor vehicle sales and use tax certain vehicles used by nonprofit organizations for disaster relief.

Under the bill, motor vehicles purchased or used by an organization exempt from federal taxation under Section 501(a), Internal Revenue Code of 1986 as an organization described by Section 501(c) (3), Internal Revenue Code of 1986, and used by the nonprofit organization primarily for disaster relief, would be exempt from the motor vehicle sales and use tax.

The bill would take effect September 1, 2003; it would apply to a motor vehicle purchased or used on or after that date.

Methodology

In Texas, there are approximately 36,460 "Section 501(c)(3)" exempt corporations that might qualify for an exemption under the bill. Based on IRS data, total net assets for qualifying exempt corporations were estimated to be 10 percent of the total net assets for all corporations.

The Comptroller's January 2003 *Tax Exemptions and Tax Incidence* report indicates that all corporations would pay approximately \$1,062,700,000 in motor vehicle sales taxes for fiscal 2004. It was estimated that 10 percent of these payments would be by exempt corporations, based on an examination of IRS data; and, of those, it was estimated that approximately 10 percent would be related to the bill's purpose. The resulting fiscal implication was extrapolated through fiscal 2008.

Local Government Impact

No fiscal implication to units of local government is anticipated.
