Fiscal Analysis

The bill would implement many provisions of e-Texas HHS 13. The bill would authorize the Health and Human Services Commission (HHSC) to perform a prepayment review of a claim for Medicaid reimbursement to determine if the claim involves fraud or abuse. The bill would authorize withholding payment of such claims for five days without notice to the person submitting the claim. HHSC may impose a post payment hold on future claims if reliable evidence of fraud involving a claim exists. The bill also would propose the following: require Medicaid providers, who have irregularities related to services, to file a surety bond; add the violation of receiving or soliciting an inducement; require third party vendors, who bill on behalf of Medicaid, to enter into contracts authorizing such activity; allow the seizure of assets of individuals determined to have engaged in fraud or abuse; and require certain reporting activities. The bill also deletes a requirement that HHSC refer a case of suspected fraud, waste, or abuse under the Medicaid program to the appropriate district attorney, county attorney, city attorney, or private collection agency if the attorney general fails to act within 30 days of referral of the case to the Office of the Attorney General.

Methodology

The Comptroller of Public Accounts assumed that the General Revenue savings accrue, due to changes in the law and the more aggressive pursuit of fraud and abuse, would be: \$7,882,000 in FY 2004, \$15,764,000 in FY 2005, \$16,391,000 in FYs 2006 and 2007, and \$16,870,000 in FY 2008. Staffing increases recommended in the e-Texas report are as follows: eleven (11) new FTEs at the Office of the Attorney General (OAG) (cost of \$1,392,000 per year) and eighteen (18) new FTEs at the Health and Human Services Commission (HHSC) (cost of \$1,126,000 per year). However, the OAG indicates that any legal work resulting from this bill could be reasonably absorbed within existing resources.

It is assumed that the savings are contingent on the appropriation to the HHSC being increased by \$1,126,000 in fiscal year 2004 and fiscal year 2005 for eighteen (18) FTEs.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
