**Fiscal Analysis**

The bill would require the Department of Public Safety (DPS) to establish a repository of information regarding the commission of sexual assault offenses and to “monitor, record, classify, and analyze” information on offenses received into the repository. The bill would require the Department of Public Safety to make the information collected under the bill available to local law enforcement agencies, political subdivisions, and state agencies.

## **Methodology**

In order to create the repository, DPS reports it would need to create a file in which information may be stored and retrieved, as well as re-program its front-end database to allow information to be entered into the file. Programming and associated costs are estimated at \$200,351 in FY 2004, \$19,529 in FY 2005, \$24,405 in FY 2006, \$25,063 in FY 2007, and \$25,744 in FY 2008. DPS reports that an additional 10 FTEs would be required to train local law enforcement agencies on entering information, and to monitor, record, classify, and analyze information. Total annual FTE costs are \$534,830 with associated annual operating costs totaling \$70,539. Estimated equipment costs (computer, software, and office furniture) total \$152,638 in FY 2004, \$4,290 in FY 2005 through FY 2007, and \$29,999 in FY 2008.

## **Technology**

Technology impact is estimated at \$290,825 in FY 2004, \$23,125 in FY 2005, \$24,405 in FY 2006, \$25,063 in FY 2007, and \$50,699 in FY 2008 and includes programming costs, computers, enterprise agreement, printers, scanners, software, and technical support.
