Fiscal Analysis

The bill would amend the Transportation Code by adding a provision preventing the waiver of a driving test for applicants who complete the Parent-Taught Driver Education Course approved by the Department of Public Safety. Additionally, it would require applicants who complete a Parent-Taught Driver Education Course to pay a \$5 fee for the driving exam. The fee would be deposited to the credit of a special account in the General Revenue Fund to be used by the Department of Public Safety.

Methodology

A three-year average (fiscal years 2000 - 2002) of Parent-Taught Education Program participants was calculated and multiplied by the \$5.00 fee. The projected revenue gain is 58,567 participants at \$5.00 each for a total of \$292,835 per year. The Department of Public Safety estimates that programming changes will be required to modify the batch and Distributive Driver License System to accommodate the collection of the new fees at a cost of \$84,480.

Technology

Programming changes will be required to modify the batch and Distributive Driver License System at an estimated cost of \$84,480.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
