Fiscal Analysis

The bill would amend the Government Code as it relates to supplemental pay for Department of Public Safety (DPS) officers who are proficient in a second language. The bill would allow DPS to supplement pay (\$100 per month) for officers who speak a second language and the second language is beneficial to public safety. The bill would require that the officer be able to demonstrate proficiency in the second language through reading, writing, and conversation skills.

Methodology

The Department of Public Safety (DPS) reports that 1,114 officers list a second language in their

original application. DPS estimates that the list of officers would decrease by 30% depending on the difficulty of proficiency testing. Assuming that it, there is an estimated annual costs would equal \$934,800 (1,114 officers x 70% proficiency x \$100 per month x 12 months per year). Additional benefit costs are estimated at \$112,190 per year.

Local Government Impact

No fiscal implication to units of local government is anticipated.
