

Amend **CSSB 1** in Article XI of the bill by adding the following rider following the Article XI items for The University of Texas at Austin (house committee printing, page XI-20):

APPROPRIATION FOR STUDY OF EAST TEXAS OIL FIELDS. Contingent on certification by the comptroller that a study made of the East Texas Oil Field by the Bureau of Economic Geology for the purpose of determining measures to be taken to maximize the recovery of the remaining oil and gas in the field would generate sufficient revenue for the state to justify the cost of the study, the amount of \$2.2 million is appropriated out of the general revenue fund to The University of Texas at Austin for use by the Bureau of Economic Geology during the state fiscal biennium beginning September 1, 2005, for the purpose of conducting the study.
