AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Over the past few legislative sessions, many changes have been made to update the Election Code, as new technology and procedures, such as electronic voting machines, early voting, and provisional voting, have been implemented. During the interim period between the last legislative session and the current one, election officials, candidates, and the secretary of state have come across various ways to make the elections process more efficient and understandable. H.B. 2309 incorporates many of these suggestions by amending provisions in the Election Code relating to certain elections processes and procedures, administration of elections, and the reporting of election returns.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
