AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Currently, there are several health and human services (HHS) benefit programs, each with its own identification and validation mechanism. The state recently recognized similar duplication among its eligibility programs and undertook a significant project to consolidate eligibility.

S.B. 46 encourages the Health and Human Services Commission (HHSC) to consider combining the benefit delivery mechanism for multiple HHS benefit programs to gain cost-efficiencies. S.B. 46 allows HHSC to develop and implement a new method, including an integrated benefits card, to consolidate identification and benefits issuance for multiple HHS services if HHSC determines such a consolidation to be cost effective.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
