### **AUTHOR'S/SPONSOR'S STATEMENT OF INTENT**

The Common Application Advisory Committee, convened by the Texas Higher Education Coordinating Board (board) in accordance with Section 51.762 (Common Admission Application Forms), Education Code, has successfully created and launched a common admissions application that is accepted by all public universities. Through this single form, a student may apply to up to six different universities, rather than complete unique applications for each institution. The form has significantly simplified the admission application process for Texas students.

Although the process of applying for admission to public universities has been greatly simplified through the development of the statewide common application, the majority of students enrolling during the next two decades are expected to begin their studies at community colleges. Currently, each of those institutions has its own unique form.

S.B. 502 requires the board to collaborate with community college representatives to develop a common application form for junior college districts, public state colleges, and public technical institutes.

### **RULEMAKING AUTHORITY**

Rulemaking authority previously granted to the Texas Higher Education Coordinating Board is modified in SECTION 2 (Section 51.762, Education Code) of this bill.
