### **AUTHOR'S/SPONSOR'S STATEMENT OF INTENT**

Although Texas has natural advantages in history, culture, geography, and climate to attract the healthy, affluent tourist, current law does not maximize federal and private sources of funding for the development of bicycle tourism trails.

S.B. 602 seeks to maximize federal and private sources of funding for the designation, construction, improvement, maintenance, and signage of bicycle tourism trails and promotion of bicycle tourism. This bill requires a bicycle advisory committee to advise and make recommendations to the Texas Transportation Commission on the development, improvement, and expansion of bicycle tourism trails.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
