AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Current Texas law does not require a person requesting open records information to pay the required fee before the request is processed. A governmental entity is required to obtain an open records decision from the attorney general in order to protect confidential information, once the information has been requested, regardless of whether it has been paid. The time and resources used in the preparation of a brief to the attorney general are not reimbursed to the governmental entity, which creates a problem when a requestor is authorized to force a governmental entity to prepare briefs for the attorney general, before payments have been made.

S.B. 623 requires the deposit or bond to be paid before the request is processed.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
