AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Development and growth in the area of eastern Montgomery County has created the need for permanent improvements such as water production and distribution facilities, wastewater collection and treatment facilities, drainage projects, and other conservation and reclamation projects by districts which are authorized to incur indebtedness to provide such permanent improvements and for the repayment of such indebtedness.

Pursuant to Article XVI, Section 59, Texas Constitution, and subject to the continuing supervisory jurisdiction of the Texas Commission on Environmental Quality, S.B. 884 creates a conservation and reclamation district to be known as East Montgomery County Municipal Utility District No. 9, over a portion of the land developed as a residential community with related retail and commercial properties in the eastern portion of Montgomery County.
