AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Under current law, the Wes-Tex Groundwater Conservation District, located entirely in Nolan County, must re-elect all eight of its directors each time the county commissioners precincts are redrawn because the directors are also elected by the designated precincts. The law also states that the election of directors must occur in May, which is costly.

S.B. 986 allows the current directors of the district to remain in their positions after a redrawing of the precinct boundaries until the end of their terms. The bill also allows for the election of the directors to occur at the same time as the county commissioners elections in November of even-numbered years. This will help ensure a greater voter turnout for the district and save the taxpayers of Nolan County money that would be spent on duplicate elections.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION 1. Amends Section 9(e), Chapter 1473, Acts of the 77th Legislature, Regular Session, 2001, to require, when the boundaries of the county commissioners precincts are redrawn, a director (on the board of directors of the Wes-Tex Groundwater Conservation District) in office on the effective date of the change, or elected or appointed before the effective date of the change to a term of office beginning on or after the effective date of the change, to serve the term or the remainder of the term in the precinct to which elected or appointed even though the change in boundaries places the person's residence outside the precinct for which the person was elected or appointed.
