AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Many small communities, nonprofit organizations, and faith-based organizations do not have the resources or expertise immediately available to properly research and develop a grant proposal. Increasing the access to grants for these entities will improve their ability to assist their communities.

As proposed, S.B. 1002 creates the TexasOnline project for grant assistance provided by state agencies. It requires the Department of Information Resources, in conjunction with the office of the governor, to create a single site with all agency grant information. It will allow the electronic submission of state grant assistance applications in a streamlined and simplified process.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
