AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

The interim study of the Criminal Justice Committee found that an issue in need of attention is the use of false identification by minors seeking to purchase tobacco and/or alcohol. As proposed, S.B. 1465 amends Subchapter H, Chapter 161, Health and Safety Code, by adding Section 161.0825 to address the problem of underage persons purchasing tobacco products. S.B. 1465 allows a retail store to utilize transaction scan devices as a means of reading driver's licenses, commercial driver's licenses, or identification certificates that are presented to the store as proof of age. S.B. 1465 prohibits the retailer from capturing or storing the information and provides that doing so is a Class A misdemeanor offense.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
