AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Current state law requires the state law library to set and charge fees for services provided by library staff, but provides that those fees are not applicable to a state agency requiring services from the library staff.

However, riders to the General Appropriations Act provide for the collection of such fees from public agencies and appropriate those funds, approximately \$80,000, to the law library.

S.B. 1491 amends Section 91.011, Government Code, by removing the provision that the fees set by the state law library for services provided by the library staff do not apply to a public agency. This change harmonizes the Government Code with riders adopted by the General Appropriations Act.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
