AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

There is an increasing need for coordinated programs and services for residents of rural communities. Organizations with established programs and delivery systems work together to provide cohesive resources to rural Texans. The Interagency Work Group on Rural Issues (work group) was created by the Texas Legislature to make recommendations for developing rural policy.

Under current law, the work group does not include an agency whose sole purpose is providing problem-solving options for rural Texans. S.B. 1686 adds the governor's designee who provides these services to the state, specifically in rural areas, as a member of the work group. This designee can assist other state agencies in developing regulatory and legislative recommendations that would benefit rural Texans.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
