### **AUTHOR'S/SPONSOR'S STATEMENT OF INTENT**

Although Willacy County Drainage District No. 1 (district) is a drainage district, it is vested with the rights, powers, and duties conferred and imposed by the general laws applicable to fresh water supply districts. The purpose, function, and operation of a drainage district is different than a fresh water supply district. In various respects, the general laws governing fresh water supply districts are either incompatible with or unsuitable to a drainage district. S.B. 1840 makes Chapter 56, Water Code, which is applicable to drainage districts applicable to the district, rather than Chapter 53, Water Code, which is applicable to fresh water supply districts.

The terminology of the Water Code now refers to the governing board of a district as a board of directors whereas the district's enabling act uses the term "board of supervisors." S.B. 1840 updates the name of the district's governing board to the board of directors.

The district's tax rate is capped at 25 cents per one hundred dollars valuation. The district's tax rate is now at the cap. S.B. 1840 allows the district to levy taxes in excess of the current 25 cents per one hundred valuation cap, if necessary.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
