H.B. No. 2425

A BILL TO BE ENTITLED

AN ACT

1
2 relating to the procedure for approval of certain amendments to a
3 water right.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

5 SECTION 1. (a) By enacting Chapter 1010, Acts of the 75th
6 Legislature, Regular Session, 1997 (S.B. No. 1), the legislature
7 created a regional and state water planning, development, and
8 management process designed to ensure that the state timely plans
9 for and develops water supplies necessary to meet existing and
10 future water supply demands. S.B. No. 1 also addressed the need for
11 timely amendments of existing water rights to help meet the state's
12 water supply demands.

13 (b) The legislature finds that, by enacting S.B. No. 1 and
14 that Act's amendment of Section 11.122(b), Water Code, the
15 legislature established as the public policy of this state that an
16 application for an amendment of a water right shall be granted
17 promptly, without notice or public hearing, if the amendment does
18 not result in an increase in the amount of water to be diverted or
19 the authorized rate of diversion and if the requested change does
20 not result in any greater impact on other water rights or the
21 environment than the water right sought to be amended would have
22 resulted in, assuming full exercise of the right as it existed
23 before the requested amendment.

24 (c) The legislature finds that this established public

1 policy of the state has been frustrated by challenges that assert
2 that notice of and public hearing on such an application is
3 required.

4 (d) The legislature declares that it continues to be the
5 public policy of this state that such an application shall be
6 granted promptly without notice or public hearing.

7 SECTION 2. Section 11.122(b), Water Code, is amended to
8 read as follows:

9 (b) The commission, without issuing notice under Section
10 11.132 or holding a public hearing under Section 11.133, shall
11 promptly approve an application for an amendment to a water right
12 ~~[Subject to meeting all other applicable requirements of this~~
13 ~~chapter for the approval of an application, an amendment]~~, except
14 an amendment to a water right that increases the amount of water
15 authorized to be diverted or the authorized rate of diversion,
16 ~~[shall be authorized]~~ if the requested change will not cause
17 adverse impact on other water right holders or the environment on
18 the stream of greater magnitude than under circumstances in which
19 the permit, certified filing, or certificate of adjudication that
20 is sought to be amended was fully exercised according to its terms
21 and conditions as they existed before the requested amendment. An
22 amendment to which this subsection applies shall be issued without
23 regard to the amount of water used or consumed historically.
24 Amendments to which this subsection applies include:

25 (1) an amendment adding an authorized purpose of use;
26 and

27 (2) an amendment that increases the area in which the

1 water is authorized to be used.

2 SECTION 3. The legislature finds that the changes in law
3 made by this Act to Section 11.122(b), Water Code, are consistent
4 with the former law governing amendments to water rights and the
5 legislature's intended interpretation and intended implementation
6 of Section 11.122(b), Water Code, before the effective date of this
7 Act. Accordingly, the changes in law made by this Act to Section
8 11.122(b), Water Code, apply to an application to amend a water
9 right that is filed with the Texas Commission on Environmental
10 Quality before, on, or after the effective date of this Act.

11 SECTION 4. This Act takes effect immediately if it receives
12 a vote of two-thirds of all the members elected to each house, as
13 provided by Section 39, Article III, Texas Constitution. If this
14 Act does not receive the vote necessary for immediate effect, this
15 Act takes effect September 1, 2005.
