C.S.S.B. No. 331

A BILL TO BE ENTITLED

AN ACT

relating to the powers and duties of the North Harris County Regional Water Authority.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 2.02(c), Chapter 1029, Acts of the 76th Legislature, Regular Session, 1999, is amended to read as follows:

(c) In the manner described by Section 49.103(d), Water Code, the board shall redraw the single-member voting districts [~~as required by law~~] as soon as practicable after[+]

[~~(1)~~] each federal decennial census[+] and as otherwise required by law

[~~(2) any change in the boundaries of the authority which increases the total area of the authority by more than 20 percent~~].

SECTION 2. Section 4.10, Chapter 1029, Acts of the 76th Legislature, Regular Session, 1999, is amended by adding Subsections (e) through (k) to read as follows:

(e) The authority may expedite the financing and construction of a surface water delivery system, or other projects of the authority to accomplish a conversion from reliance on groundwater to reliance on surface water not later than the earlier of:

(1) the date required by the subsidence district; or

(2) the date determined by the board to be in the

1 interest of the authority or one or more districts inside or outside  
2 the authority.

3 (f)(1) In this section, "surface water delivery system"  
4 includes a facility that is to be constructed and that will be:

5 (A) used to transport groundwater between  
6 utility districts;

7 (B) used temporarily to transport groundwater  
8 between utility districts if there is a reasonable probability that  
9 the facility will be used for that purpose on a permanent basis in  
10 the future; or

11 (C) necessary to accomplish an authority  
12 purpose, including management of water, water conservation, or  
13 water reuse.

14 (2) For purposes of subsections (e)-(k), "surface  
15 water delivery system" does not include the use of the bed and banks  
16 to transport water or waste water.

17 (g) It is the intent of the legislature that the commission  
18 cooperate with and assist the authority in developing a surface  
19 water delivery system or other authority project in an expedited  
20 manner as provided by Subsection (e). The commission may grant  
21 conditional approval of a construction project or waive a  
22 requirement of any law or commission rule with respect to a  
23 construction project, if the conditional approval or waiver does  
24 not compromise public health or safety.

25 (h) If the commission grants conditional approval of or a  
26 waiver for a construction project, the authority shall make any  
27 subsequent changes in the construction project necessary to protect

1 the public health or safety that the commission requires.

2 (i) The commission may not require as a condition for  
3 approving an authority construction project that the authority  
4 enter into a contract with another person. The authority may meet  
5 its obligations under commission rules that require that certain  
6 issues be addressed by contract by adopting rules that address  
7 those issues and that allocate responsibility as necessary between  
8 the authority and a district or person within the boundaries of the  
9 authority.

10 (j) The commission and the authority may enter into a  
11 memorandum of understanding that relates to the construction of a  
12 surface water delivery system. The memorandum of understanding  
13 may:

14 (1) establish standard procedures for the commission  
15 to grant conditional or final approval of authority construction  
16 projects;

17 (2) establish standing waivers or conditions  
18 applicable to those construction projects;

19 (3) if the delegation does not violate federal law and  
20 is not inconsistent with any agreement of this state with, or any  
21 delegation of authority to this state from, The United States  
22 Environmental Protection Agency, delegate powers to the authority  
23 to carry out any commission duty relating to an activity that the  
24 authority may undertake;

25 (4) set minimum standards for construction or other  
26 projects; or

27 (5) address any other matter that relates to an

1 activity that the authority may undertake and that the commission  
2 may regulate.

3 (k) To comply with commission rules that would require the  
4 authority to state specific amounts of water that may or will be  
5 provided to another entity receiving water from the authority, the  
6 authority may state the amount in ranges that the authority may  
7 change on prompt notification to the commission.

8 SECTION 3. Chapter 1029, Acts of the 76th Legislature,  
9 Regular Session, 1999, is amended by adding Section 5.01A to read as  
10 follows:

11 Sec. 5.01A. ANTICIPATION NOTES AND BONDS. (a) The board  
12 may issue negotiable revenue anticipation notes or negotiable bond  
13 anticipation notes to borrow the money needed by the authority  
14 without advertising or giving notice of the sale. The board may  
15 also issue negotiable combination revenue and bond anticipation  
16 notes. Negotiable combination revenue and bond anticipation notes  
17 may contain any term authorized under this section for revenue  
18 anticipation notes or bond anticipation notes. Any note issued  
19 must mature not later than one year after its date of issuance.

20 (b) A revenue anticipation note may be issued to enable the  
21 authority to carry out any purpose authorized by this Act. A  
22 revenue anticipation note must be secured by the proceeds of  
23 revenues to be collected by the authority in the 12-month period  
24 following the date of issuance of the note. The board may covenant  
25 with the purchasers of the notes that the board will charge and  
26 collect sufficient revenues to pay the principal of and interest on  
27 the notes and pay the cost of collecting the revenues.

1       (c) A bond anticipation note may be issued for any purpose  
2 for which a bond of the authority may be issued or to refund  
3 previously issued revenue or bond anticipation notes. The  
4 authority may covenant with the purchasers of the bond anticipation  
5 notes that the authority will use the proceeds of the sale of any  
6 bonds in the process of issuance for the purpose of refunding the  
7 bond anticipation notes, in which case the board shall use the  
8 proceeds received from the sale of the bonds in the process of  
9 issuance to pay the principal, interest, or redemption price on the  
10 bond anticipation notes.

11       (d) For purposes of Section 1202.007, Government Code, a  
12 note issued under this section is considered to be payable only out  
13 of:

14               (1) current revenues collected in the year the note is  
15 issued; or

16               (2) the proceeds of other public securities.

17       SECTION 4. This Act takes effect immediately if it receives  
18 a vote of two-thirds of all the members elected to each house, as  
19 provided by Section 39, Article III, Texas Constitution. If this  
20 Act does not receive the vote necessary for immediate effect, this  
21 Act takes effect September 1, 2005.
