AN ACT

relating to the medical assistance program and the provision of related services.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. COMMUNITY COLLABORATION. Subchapter A, Chapter 531, Government Code, is amended by adding Section 531.020 to read as follows:

Sec. 531.020. OFFICE OF COMMUNITY COLLABORATION. The executive commissioner shall establish within the commission an office of community collaboration. The office is responsible for:

(1) collaborating with community, state, and federal stakeholders to improve the elements of the health care system that are involved in the delivery of Medicaid services; and

(2) sharing with Medicaid providers, including hospitals, any best practices, resources, or other information regarding improvements to the health care system.

SECTION 2. COLLECTION AND ANALYSIS OF INFORMATION.

(a) Subchapter B, Chapter 531, Government Code, is amended by adding Section 531.02141 to read as follows:

Sec. 531.02141. MEDICAID INFORMATION COLLECTION AND ANALYSIS. (a) The commission shall make every effort to improve data analysis and integrate available information associated with the Medicaid program. The commission shall use the decision support system in the commission's center for strategic decision

1 support for this purpose and shall modify or redesign the system to  
2 allow for the data collected by the Medicaid program to be used more  
3 systematically and effectively for Medicaid program evaluation and  
4 policy development. The commission shall develop or redesign the  
5 system as necessary to ensure that the system:

6 (1) incorporates program enrollment, utilization, and  
7 provider data that is currently collected;

8 (2) allows data manipulation and quick analysis to  
9 address a large variety of questions concerning enrollment and  
10 utilization patterns and trends within the program;

11 (3) is able to obtain consistent and accurate answers  
12 to questions;

13 (4) allows for analysis of multiple issues within the  
14 program to determine whether any programmatic or policy issues  
15 overlap or are in conflict;

16 (5) includes predefined data reports on utilization of  
17 high-cost services that allow program management to analyze and  
18 determine the reasons for an increase or decrease in utilization  
19 and immediately proceed with policy changes, if appropriate; and

20 (6) includes encounter data provided by managed care  
21 organizations under Chapter 533 in a format that allows the data to  
22 be queried across recipients, regardless of whether the recipients  
23 are receiving services under the health maintenance organization  
24 model, primary care case management model, or fee-for-service  
25 system.

26 (b) The commission shall ensure that all Medicaid data sets  
27 created or identified by the decision support system are made

1 available on the Internet to the extent not prohibited by federal or  
2 state laws regarding medical privacy or security. If privacy  
3 concerns exist or arise with respect to making the data sets  
4 available on the Internet, the system and the commission shall make  
5 every effort to make the data available through that means either by  
6 removing information by which particular individuals may be  
7 identified or by aggregating the data in a manner so that individual  
8 records cannot be associated with particular individuals.

9 (b) The Health and Human Services Commission shall allow for  
10 sufficient opportunities for stakeholder input in the modification  
11 or redesign of the decision support system in the commission's  
12 center for strategic decision support as required by Section  
13 531.02141, Government Code, as added by this section. The  
14 commission may provide these opportunities through:

15 (1) existing mechanisms, such as regional advisory  
16 committees or public forums; and

17 (2) meetings involving state and local agencies and  
18 other entities involved in the planning, management, or delivery of  
19 health and human services in this state.

20 SECTION 3. ADMINISTRATIVE PROCESSES AND AUDIT  
21 REQUIREMENTS. (a) Subchapter B, Chapter 531, Government Code, is  
22 amended by adding Sections 531.02411 and 531.02412 to read as  
23 follows:

24 Sec. 531.02411. STREAMLINING ADMINISTRATIVE PROCESSES.  
25 The commission shall make every effort using the commission's  
26 existing resources to reduce the paperwork and other administrative  
27 burdens placed on Medicaid recipients and providers and other

1 participants in the Medicaid program and shall use technology and  
2 efficient business practices to decrease those burdens. In  
3 addition, the commission shall make every effort to improve the  
4 business practices associated with the administration of the  
5 Medicaid program by any method the commission determines is  
6 cost-effective, including:

7 (1) expanding the utilization of the electronic claims  
8 payment system;

9 (2) developing an Internet portal system for prior  
10 authorization requests;

11 (3) encouraging Medicaid providers to submit their  
12 program participation applications electronically;

13 (4) ensuring that the Medicaid provider application is  
14 easy to locate on the Internet so that providers may conveniently  
15 apply to the program;

16 (5) working with federal partners to take advantage of  
17 every opportunity to maximize additional federal funding for  
18 technology in the Medicaid program; and

19 (6) encouraging the increased use of medical  
20 technology by providers, including increasing their use of:

21 (A) electronic communications between patients  
22 and their physicians or other health care providers;

23 (B) electronic prescribing tools that provide  
24 up-to-date payer formulary information at the time a physician or  
25 other health care practitioner writes a prescription and that  
26 support the electronic transmission of a prescription;

27 (C) ambulatory computerized order entry systems

1 that facilitate physician and other health care practitioner orders  
2 at the point-of-care for medications and laboratory and  
3 radiological tests;

4 (D) inpatient computerized order entry systems  
5 to reduce errors, improve health care quality, and lower costs in a  
6 hospital setting;

7 (E) regional data-sharing to coordinate patient  
8 care across a community for patients who are treated by multiple  
9 providers; and

10 (F) electronic intensive care unit technology to  
11 allow physicians to fully monitor hospital patients remotely.

12 Sec. 531.02412. SERVICE DELIVERY AUDIT MECHANISMS. The  
13 commission shall make every effort to ensure the integrity of the  
14 Medicaid program. To ensure that integrity, the commission shall:

15 (1) perform risk assessments of every element of the  
16 Medicaid program and audit those elements of the program that are  
17 determined to present the greatest risks;

18 (2) ensure that sufficient oversight is in place for  
19 the Medicaid medical transportation program;

20 (3) ensure that a quality review assessment of the  
21 Medicaid medical transportation program occurs; and

22 (4) evaluate the Medicaid program with respect to use  
23 of the metrics developed through the Texas Health Steps performance  
24 improvement plan to guide changes and improvements to the program.

25 (b) The Health and Human Services Commission shall examine  
26 options for standardizing and simplifying the interaction between  
27 the Medicaid system and providers regardless of the service

1 delivery system through which a provider provides services and,  
2 using existing resources, implement any options that are  
3 anticipated to increase the quality of care and contain costs.

4 SECTION 4. LONG-TERM CARE SERVICES. (a) Subchapter B,  
5 Chapter 531, Government Code, is amended by adding Sections 531.083  
6 and 531.084 to read as follows:

7 Sec. 531.083. MEDICAID LONG-TERM CARE SYSTEM. The  
8 commission shall ensure that the Medicaid long-term care system  
9 provides the broadest array of choices possible for recipients  
10 while ensuring that the services are delivered in a manner that is  
11 cost-effective and makes the best use of available funds. The  
12 commission shall also make every effort to improve the quality of  
13 care for recipients of Medicaid long-term care services by:

14 (1) evaluating the need for expanding the provider  
15 base for consumer-directed services and, if the commission  
16 identifies a demand for that expansion, encouraging area agencies  
17 on aging, independent living centers, and other potential long-term  
18 care providers to become providers through contracts with the  
19 Department of Aging and Disability Services;

20 (2) ensuring that all recipients who reside in a  
21 nursing facility are provided information about end-of-life care  
22 options and the importance of planning for end-of-life care; and

23 (3) developing policies to encourage a recipient who  
24 resides in a nursing facility to receive treatment at that facility  
25 whenever possible, while ensuring that the recipient receives an  
26 appropriate continuum of care.

27 Sec. 531.084. MEDICAID LONG-TERM CARE COST CONTAINMENT

1 STRATEGIES. (a) The commission shall make every effort to achieve  
2 cost efficiencies within the Medicaid long-term care program. To  
3 achieve those efficiencies, the commission shall:

4 (1) establish a fee schedule for reimbursable incurred  
5 medical expenses for dental services controlled in long-term care  
6 facilities;

7 (2) implement a fee schedule for reimbursable incurred  
8 medical expenses for durable medical equipment in nursing  
9 facilities and ICF-MR facilities;

10 (3) implement a durable medical equipment fee schedule  
11 action plan;

12 (4) establish a system for private contractors to  
13 secure and coordinate the collection of Medicare funds for  
14 recipients who are dually eligible for Medicare and Medicaid;

15 (5) create additional partnerships with  
16 pharmaceutical companies to obtain discounted prescription drugs  
17 for Medicaid recipients; and

18 (6) develop and implement a system for auditing the  
19 Medicaid hospice care system that provides services in long-term  
20 care facilities to ensure correct billing for pharmaceuticals.

21 (b) The executive commissioner and the commissioner of  
22 aging and disability services shall jointly appoint persons to  
23 serve on a work group to assist the commission in developing the fee  
24 schedule required by Subsection (a)(1). The work group must  
25 consist of providers of long-term care services, including dentists  
26 and long-term care advocates.

27 (c) In developing the fee schedule required by Subsection

1 (a)(1), the commission shall consider:

2 (1) the need to ensure access to dental services for  
3 residents of long-term care facilities who are unable to travel to a  
4 dental office to obtain care;

5 (2) the most recent Comprehensive Fee Report published  
6 by the National Dental Advisory Service;

7 (3) the difficulty of providing dental services in  
8 long-term care facilities;

9 (4) the complexity of treating medically compromised  
10 patients; and

11 (5) time-related and travel-related costs incurred by  
12 dentists providing dental services in long-term care facilities.

13 (d) The commission shall annually update the fee schedule  
14 required by Subsection (a)(1).

15 (b) The Health and Human Services Commission shall examine:

16 (1) the possibility of implementing a program to  
17 expand Medicaid home health benefits to include speech pathology  
18 services, intravenous therapy, and chemotherapy treatments and, if  
19 cost-effective, implement that program;

20 (2) the possibility of implementing a program to  
21 provide respite and other support services to individuals providing  
22 daily assistance to persons with Alzheimer's disease or dementia to  
23 reduce caregiver burnout and, if cost-effective, implement that  
24 program;

25 (3) the possibility of implementing a program to offer  
26 services through state schools to recipients who are living in the  
27 community and a program to use funding for community-based services

1 to pay for the services from the state schools and, if  
2 cost-effective, implement those programs;

3 (4) in conjunction with the Department of Aging and  
4 Disability Services, the possibility of implementing a program to  
5 simplify the administrative procedures for regulating nursing  
6 facilities and, if cost-effective, implement that program; and

7 (5) the possibility of using fee schedules, prior  
8 approval processes, and alternative service delivery options to  
9 ensure appropriate utilization and payment for Medicaid services  
10 and, if cost-effective, implement those schedules, processes, and  
11 options.

12 (c) The Health and Human Services Commission shall study and  
13 determine whether polypharmacy reviews for Medicaid recipients  
14 receiving long-term care services could identify inappropriate  
15 pharmaceutical usage patterns and lead to controlled costs.

16 (d) Prior to developing and adopting the fee schedule  
17 required by Subdivision (1), Subsection (a), Section 531.084,  
18 Government Code, as added by this section, the Health and Human  
19 Services Commission shall make every effort to expedite the  
20 approval of dental treatment plans and the approval and payment of  
21 reimbursable incurred medical expenses for dental services  
22 provided to residents of long-term care facilities.

23 SECTION 5. MEDICAID MANAGED CARE. (a) Subsection (a),  
24 Section 533.005, Government Code, is amended to read as follows:

25 (a) A contract between a managed care organization and the  
26 commission for the organization to provide health care services to  
27 recipients must contain:

1           (1) procedures to ensure accountability to the state  
2 for the provision of health care services, including procedures for  
3 financial reporting, quality assurance, utilization review, and  
4 assurance of contract and subcontract compliance;

5           (2) capitation and provider payment rates that ensure  
6 the cost-effective provision of quality health care;

7           (3) a requirement that the managed care organization  
8 provide ready access to a person who assists recipients in  
9 resolving issues relating to enrollment, plan administration,  
10 education and training, access to services, and grievance  
11 procedures;

12           (4) a requirement that the managed care organization  
13 provide ready access to a person who assists providers in resolving  
14 issues relating to payment, plan administration, education and  
15 training, and grievance procedures;

16           (5) a requirement that the managed care organization  
17 provide information and referral about the availability of  
18 educational, social, and other community services that could  
19 benefit a recipient;

20           (6) procedures for recipient outreach and education;

21           (7) a requirement that the managed care organization  
22 make payment to a physician or provider for health care services  
23 rendered to a recipient under a managed care plan not later than the  
24 45th day after the date a claim for payment is received with  
25 documentation reasonably necessary for the managed care  
26 organization to process the claim, or within a period, not to exceed  
27 60 days, specified by a written agreement between the physician or

1 provider and the managed care organization;

2 (8) a requirement that the commission, on the date of a  
3 recipient's enrollment in a managed care plan issued by the managed  
4 care organization, inform the organization of the recipient's  
5 Medicaid certification date;

6 (9) a requirement that the managed care organization  
7 comply with Section 533.006 as a condition of contract retention  
8 and renewal;

9 (10) a requirement that the managed care organization  
10 provide the information required by Section 533.012 and otherwise  
11 comply and cooperate with the commission's office of inspector  
12 general [~~investigations and enforcement~~];

13 (11) a requirement that the managed care  
14 organization's usages of out-of-network providers or groups of  
15 out-of-network providers may not exceed limits for those usages  
16 relating to total inpatient admissions, total outpatient services,  
17 and emergency room admissions determined by the commission; [~~and~~]

18 (12) if the commission finds that a managed care  
19 organization has violated Subdivision (11), a requirement that the  
20 managed care organization reimburse an out-of-network provider for  
21 health care services at a rate that is equal to the allowable rate  
22 for those services, as determined under Sections 32.028 and  
23 32.0281, Human Resources Code; and

24 (13) a requirement that the organization use advanced  
25 practice nurses in addition to physicians as primary care providers  
26 to increase the availability of primary care providers in the  
27 organization's provider network.

1 (b) Subchapter A, Chapter 533, Government Code, is amended  
2 by adding Sections 533.0071 and 533.0072 to read as follows:

3 Sec. 533.0071. ADMINISTRATION OF CONTRACTS. The commission  
4 shall make every effort to improve the administration of contracts  
5 with managed care organizations. To improve the administration of  
6 these contracts, the commission shall:

7 (1) ensure that the commission has appropriate  
8 expertise and qualified staff to effectively manage contracts with  
9 managed care organizations under the Medicaid managed care program;

10 (2) evaluate options for Medicaid payment recovery  
11 from managed care organizations if the enrollee dies or is  
12 incarcerated or if an enrollee is enrolled in more than one state  
13 program;

14 (3) maximize Medicaid payment recovery options by  
15 contracting with private vendors to assist in the recovery of  
16 capitation payments and other payments made to managed care  
17 organizations with respect to enrollees who leave the managed care  
18 program; and

19 (4) decrease the administrative burdens of managed  
20 care for the state, the managed care organizations, and the  
21 providers under managed care networks to the extent that those  
22 changes are compatible with state law and existing Medicaid managed  
23 care contracts, including decreasing those burdens by:

24 (A) where possible, decreasing the duplication  
25 of administrative reporting requirements for the managed care  
26 organizations, such as requirements for the submission of encounter  
27 data, quality reports, historically underutilized business

1 reports, and claims payment summary reports;

2 (B) allowing managed care organizations to  
3 provide updated address information directly to the commission for  
4 correction in the state system;

5 (C) requiring consistency and uniformity among  
6 managed care organization policies, including policies relating to  
7 the pre-authorization process, lengths of hospital stays, filing  
8 deadlines, levels of care, and case management services; and

9 (D) reviewing the appropriateness of primary  
10 care case management requirements in the admission and clinical  
11 criteria process, such as requirements relating to including a  
12 separate cover sheet for all communications, submitting  
13 handwritten communications instead of electronic or typed review  
14 processes, and admitting patients listed on separate  
15 notifications.

16 Sec. 533.0072. INTERNET POSTING OF SANCTIONS IMPOSED FOR  
17 CONTRACTUAL VIOLATIONS. (a) The commission shall prepare and  
18 maintain a record of each enforcement action initiated by the  
19 commission that results in a sanction, including a penalty, being  
20 imposed against a managed care organization for failure to comply  
21 with the terms of a contract to provide health care services to  
22 recipients through a managed care plan issued by the organization.

23 (b) The record must include:

24 (1) the name and address of the organization;

25 (2) a description of the contractual obligation the  
26 organization failed to meet;

27 (3) the date of determination of noncompliance;

1           (4) the date the sanction was imposed;

2           (5) the maximum sanction that may be imposed under the  
3 contract for the violation; and

4           (6) the actual sanction imposed against the  
5 organization.

6           (c) The commission shall post and maintain the records  
7 required by this section on the commission's Internet website in  
8 English and Spanish. The records must be posted in a format that is  
9 readily accessible to and understandable by a member of the public.  
10 The commission shall update the list of records on the website at  
11 least quarterly.

12           (d) The commission may not post information under this  
13 section that relates to a sanction while the sanction is the subject  
14 of an administrative appeal or judicial review.

15           (e) A record prepared under this section may not include  
16 information that is excepted from disclosure under Chapter 552.

17           (f) The executive commissioner shall adopt rules as  
18 necessary to implement this section.

19           (c) The Health and Human Services Commission shall  
20 re-evaluate the case management fee used in the primary care case  
21 management program and shall make recommendations to the  
22 Legislative Budget Board if the commission finds that a different  
23 rate is appropriate.

24           (d) The Health and Human Services Commission shall examine:

25           (1) the feasibility and cost-effectiveness of  
26 establishing a sliding-scale case management fee for the primary  
27 care case management program based on primary care provider

1 performance;

2 (2) the operational efficiency, health outcomes, case  
3 management, and cost-effectiveness of the primary care case  
4 management program and adopt any necessary changes to maximize  
5 health outcomes and cost-effectiveness; and

6 (3) the mechanism used to encourage hospital  
7 participation in the primary care case management program and adopt  
8 alternative policies if current policies are determined to be  
9 ineffective.

10 (e) The Health and Human Services Commission shall make  
11 every effort to improve the delivery of health care services to  
12 recipients enrolled in the Medicaid managed care program by  
13 evaluating the following actions for a determination of  
14 cost-effectiveness and pursuing those actions if they are  
15 determined to be cost-effective:

16 (1) adding a Medicaid managed care contract  
17 requirement that requires each managed care plan to provide  
18 immunizations to Medicaid clients;

19 (2) to the extent permitted by federal law, allowing  
20 managed care organizations access to the previous claims history of  
21 a new enrollee that is maintained by a claims administrator if the  
22 new managed care organization enrollee was formerly a recipient  
23 under the Medicaid fee for service or primary care case management  
24 system;

25 (3) encouraging managed care organizations to operate  
26 nurse triage telephone lines and to more effectively notify  
27 enrollees that the lines exist and inform enrollees regarding how

1 to access those lines;

2 (4) creating more rigorous contract standards for  
3 managed care organizations to ensure that children have clinically  
4 appropriate alternatives to emergency room services outside of  
5 regular office hours;

6 (5) developing more effective mechanisms to identify  
7 and control the utilization of program services by enrollees who  
8 are found to have abused the services; and

9 (6) studying the impact on the program of enrollees  
10 who have a history of high or abusive use of program services and  
11 incorporating the most effective methods of curtailing that  
12 activity while assuring that those enrollees receive adequate  
13 health services.

14 (f) Section 533.005, Government Code, as amended by this  
15 section, applies only to a contract between the Health and Human  
16 Services Commission and a managed care organization under Chapter  
17 533, Government Code, that is entered into or renewed on or after  
18 the effective date of this section. A contract between the  
19 commission and an organization that is entered into or renewed  
20 before the effective date of this section is governed by the law in  
21 effect on the date the contract was entered into or renewed, and the  
22 former law is continued in effect for that purpose.

23 (g) Section 533.0072, Government Code, as added by this  
24 section, applies only to a sanction imposed on or after the  
25 effective date of this section.

26 SECTION 6. SELECTION OF MEDICAL ASSISTANCE PROVIDERS.  
27 Subsection (f), Section 32.027, Human Resources Code, is amended to

1 read as follows:

2 (f) The executive commissioner of the Health and Human  
3 Services Commission [~~department~~] by rule may [~~shall~~] develop a  
4 system of selective contracting with health care providers for the  
5 provision of nonemergency inpatient hospital services to a  
6 recipient of medical assistance under this chapter. In  
7 implementing this subsection, the executive commissioner  
8 [~~department~~] shall:

9 (1) seek input from consumer representatives and from  
10 representatives of hospitals licensed under Chapter 241, Health and  
11 Safety Code, and from organizations representing those hospitals;  
12 and

13 (2) ensure that providers selected under the system  
14 meet the needs of a recipient of medical assistance under this  
15 chapter.

16 SECTION 7. OPTIMIZATION OF CASE MANAGEMENT SYSTEMS.

17 (a) Subchapter B, Chapter 32, Human Resources Code, is amended by  
18 adding Section 32.0551 to read as follows:

19 Sec. 32.0551. OPTIMIZATION OF CASE MANAGEMENT SYSTEMS. The  
20 Health and Human Services Commission shall:

21 (1) create and coordinate staffing and other  
22 administrative efficiencies for case management initiatives across  
23 the commission and health and human services agencies, as defined  
24 by Section 531.001, Government Code; and

25 (2) optimize federal funding revenue sources and  
26 maximize the use of state funding resources for case management  
27 initiatives across the commission and health and human services

1 agencies.

2 (b) The Health and Human Services Commission shall evaluate  
3 the cost-effectiveness of developing intensive case management and  
4 targeted interventions for all Medicaid recipients who are aged,  
5 blind, or disabled.

6 (c) The Health and Human Services Commission shall identify  
7 Medicaid programs or protocols in existence on the effective date  
8 of this section that are not resulting in their anticipated cost  
9 savings or quality outcomes. The commission shall enhance or  
10 replace these programs or protocols with targeted strategies that  
11 have demonstrated success in improving coordination of care and  
12 cost savings within similar Medicaid recipient populations.

13 (d) The Health and Human Services Commission shall conduct a  
14 study regarding the cost-effectiveness of including within  
15 Medicaid disease management programs in existence on the effective  
16 date of this section end-stage renal disease, home health services  
17 for children with chronic conditions that are not included in the  
18 existing disease management programs, the use of schools and school  
19 nurses to manage chronic conditions of children, and the inclusion  
20 of other diseases, conditions, and strategies. In studying the  
21 cost-effectiveness of including other diseases, conditions, and  
22 strategies, the commission shall review existing research and  
23 examine the experiences of other states, insurance companies, and  
24 managed care organizations.

25 (e) The Health and Human Services Commission shall conduct a  
26 study to determine the feasibility of combining the utilization  
27 management, case management, care coordination, high-cost

1 targeting, provider incentives, and other quality and cost-control  
2 measures implemented with respect to the Medicaid program under a  
3 single federal waiver, which may be a waiver under Section 1915(c)  
4 of the federal Social Security Act (42 U.S.C. Section 1396n(c)), or  
5 a waiver under Section 1115(a) of that Act. If the commission  
6 determines that the combination is feasible, the commission shall  
7 develop the combined program and seek the appropriate approval from  
8 the Centers for Medicare and Medicaid Services.

9 SECTION 8. EDUCATION CAMPAIGN. (a) Subchapter B, Chapter  
10 32, Human Resources Code, is amended by adding Section 32.071 to  
11 read as follows:

12 Sec. 32.071. RECIPIENT AND PROVIDER EDUCATION. (a) The  
13 department shall develop and implement a comprehensive medical  
14 assistance education campaign for recipients and providers to  
15 ensure that care is provided in such a way as to improve patient  
16 outcomes and maximize cost-effectiveness. The department shall  
17 ensure that educational information developed under this section is  
18 demographically relevant and appropriate for each recipient or  
19 provider to whom the information is provided.

20 (b) The comprehensive medical assistance education campaign  
21 must include elements designed to encourage recipients to obtain,  
22 maintain, and use a medical home and to reduce their use of  
23 high-cost emergency department services for conditions that can be  
24 treated through primary care or nonemergency physicians or other  
25 providers. The campaign must include the dissemination of  
26 educational information through newsletters and emergency  
27 department staff members and at local health fairs, unless the

1 department determines that these methods of dissemination are not  
2 effective in increasing recipients' appropriate use of the health  
3 care system.

4 (c) The department shall evaluate whether certain risk  
5 groups may disproportionately increase their appropriate use of the  
6 health care system as a result of targeted elements of an education  
7 campaign. If the department determines that certain risk groups  
8 will respond with more appropriate use of the system, the  
9 department shall develop and implement the appropriate targeted  
10 educational elements.

11 (d) The department shall develop a system for reviewing  
12 recipient prescription drug use and educating providers with  
13 respect to that drug use in a manner that emphasizes reducing  
14 inappropriate prescription drug use and the possibility of adverse  
15 drug interactions.

16 (e) The department shall coordinate the medical assistance  
17 education campaign with area health education centers, federally  
18 qualified health centers, as defined by 42 U.S.C. Section  
19 1396d(1)(2)(B), and other stakeholders who use public funds to  
20 educate recipients and providers about the health care system in  
21 this state. The department shall make every effort to maximize  
22 state funds by working through these partners to maximize receipt  
23 of additional federal funding for administrative and other costs.

24 (f) The department shall coordinate with other state and  
25 local agencies to ensure that community-based health workers,  
26 health educators, state eligibility determination employees who  
27 work in hospitals and other provider locations, and promoters are

1 used in the medical assistance education campaign, as appropriate.

2 (g) The department shall ensure that all state agencies that  
3 work with recipients, all administrative persons who provide  
4 eligibility determination and enrollment services, and all service  
5 providers use the same curriculum for recipient and provider  
6 education, as appropriate.

7 (b) In developing the comprehensive medical assistance  
8 education campaign under Section 32.071, Human Resources Code, as  
9 added by this section, the Health and Human Services Commission  
10 shall ensure that private entities participating in the Medicaid  
11 program, including vendors providing claims administration,  
12 eligibility determination, enrollment services, and managed care  
13 services, are involved to the extent those entities' participation  
14 is useful.

15 (c) The Health and Human Services Commission shall identify  
16 all funds being spent on the effective date of this section on  
17 education for Medicaid recipients. The commission shall integrate  
18 these funds into the comprehensive medical assistance education  
19 campaign under Section 32.071, Human Resources Code, as added by  
20 this section.

21 SECTION 9. MAXIMIZATION OF FEDERAL RESOURCES. The Health  
22 and Human Services Commission shall make every effort to maximize  
23 the receipt and use of federal health and human services resources  
24 for the office of community collaboration established under Section  
25 531.020, Government Code, as added by this Act, and the decision  
26 support system in the commission's center for strategic decision  
27 support.

1           SECTION 10. IMPLEMENTATION; WAIVER. (a) The Health and  
2 Human Services Commission shall make every effort to take each  
3 action and implement each reform required by this Act as soon as  
4 possible. Except as otherwise provided by this subsection and  
5 Subsection (d) of this section, the commission shall take each  
6 action and implement each reform required by this Act not later than  
7 September 1, 2007. Any action of the commission taken to justify  
8 implementing or ignoring the reforms required by this Act must be  
9 defensible, but need not be exhaustive.

10           (b) Not later than December 1, 2005, the Health and Human  
11 Services Commission shall submit a report to the governor and to the  
12 presiding officers of the standing committees of the senate and  
13 house of representatives having primary jurisdiction over health  
14 and human services that specifies the strategies the commission or  
15 an appropriate health and human services agency, as defined by  
16 Section 531.001, Government Code, will use to examine, study,  
17 evaluate, or otherwise make a determination relating to a reform or  
18 take another action required by this Act.

19           (c) Except as provided by Subsection (b) of this section,  
20 for each provision of this Act that requires the Health and Human  
21 Services Commission or a health and human services agency, as  
22 defined by Section 531.001, Government Code, to examine the  
23 possibility of making changes to the Medicaid program, to study an  
24 aspect of the Medicaid program, to evaluate the cost-effectiveness  
25 of a proposed reform, or to otherwise make a determination before  
26 implementing a reform, the Health and Human Services Commission  
27 shall submit a report to the governor and to the presiding officers

1 of the standing committees of the senate and house of  
2 representatives having primary jurisdiction over health and human  
3 services that includes the criteria used and the results obtained  
4 by the commission or health and human services agency in taking the  
5 required action. The report must be delivered not later than  
6 September 1, 2007.

7 (d) If before implementing any provision of this Act a state  
8 agency determines that a waiver or authorization from a federal  
9 agency is necessary for implementation of that provision, the  
10 agency affected by the provision shall request the waiver or  
11 authorization and may delay implementing that provision until the  
12 waiver or authorization is granted.

13 SECTION 11. EFFECTIVE DATE. This Act takes effect  
14 September 1, 2005.
