2009	(\$9,572,400)
2010	(\$9,574,100)

Fiscal Analysis

The bill would authorize the issuance of up to \$109,560,000 in tuition revenue bonds for construction and improvement of facilities and related infrastructure at Texas Southern University.

The bonds would be payable from pledged revenue plus tuition. The bonds would not be general obligations of state. However, the issued bonds would have fiscal implications for the state. Although tuition income is pledged against the bonds, historically the Legislature has appropriated General Revenue to reimburse institutions for the tuition used to pay the debt service. This note assumes the Legislature would continue this policy.

Methodology

It is assumed the bonds would be issued on September 1, 2005, at a 6.0 percent interest rate with a 20-year level debt service amortization. Based on calculations prepared by the Texas Public Finance Authority the amount of debt service payments would be \$8,775,800 for fiscal year 2006 and \$9,573,600 for fiscal year 2007. The total estimated amount of debt service (principal and interest from fiscal year 2006 to fiscal year 2025 is estimated to be \$190,647,900.

Local Government Impact

No fiscal implication to units of local government is anticipated.
