2010	\$250,000	\$150,000	\$750,000	\$0

Fiscal Analysis

The bill would amend Section 502.001 of the Transportation Code to include a vehicle with a bench for the use of the rider in the definition of "all-terrain vehicle."

The bill would take effect on September 1, 2005.

Methodology

Based on the information provided by the Texas Department of Transportation (TxDOT), the bill would affect the number and type of vehicles required to be titled as all-terrain vehicles by including

golf carts and slow-moving/multi-purpose vehicles. Under current law, golf carts and multi-purpose vehicles are not required to be titled but may be registered for use on certain public roadways.

Based on the analysis of TxDOT, it is assumed that an estimated 50,000 additional all-terrain vehicle titles will be issued each year with an application fee of \$28 for an annual revenue gain to the General Revenue Fund, State Highway Fund, Texas Emissions Reduction Plan Account (fiscal year 2006 - 2008), Texas Mobility Fund (fiscal years 2009 and 2010), and to the counties. For fiscal years 2006 through 2008, the fee revenue would be distributed as follows: \$5 to the General Revenue Fund; \$3 to the State Highway Fund; \$15 to the Texas Emissions Reduction Plan Account No. 5071; and \$5 retained by the counties. For fiscal years 2009 and 2010, the revenue would be distributed as follows: \$5 to the General Revenue Fund; \$3 to the State Highway Fund; \$15 to the Texas Mobility Fund No. 365; and \$5 retained by the counties.

It is assumed any additional costs and duties associated with implementing the provisions of the bill could be absorbed within TxDOT's existing resources.

Local Government Impact

It is assumed the increase in the number of all-terrain vehicle titles issued would result in an annual revenue gain to the counties of \$250,000 each year.
