

Amend SB 1828 after line 16 by inserting a new subsection (b-1) to read as follows:

(b-1) Information retained may be printed to hard copy with a time and date confirmation from the transaction scan device or transferred to an electronic encrypted data storage or electronic record. After printing or transferring data, the transaction scan device may clear the scanned information from the device of any memory in the device. The commission by rule may set further requirements for the retention of information under this subsection.
