C.S.H.B. 1391
By: Turner (Whitmire)
Natural Resources
5/18/2007
Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Under current law, the Texas Commission on Environmental Quality (TCEQ) does not oversee the water safety measures of certain regulatory authorities. Prior to annexation, several neighborhoods in Harris County were unincorporated and are lacking water systems that ensure adequate water pressure to operate fire hydrants. The neighborhoods' public safety is at risk due to the lack of oversight from the regulating authority. For example, the Garden City neighborhood of Houston has lost numerous homes to fire due to insufficient equipment and lack of water pressure.

C.S.H.B. 1391 requires a regulatory authority for a public utility by rule or ordinance to adopt standards for maintaining sufficient water pressure for service to fire hydrants adequate to protect public safety in residential areas in a municipality with a population of 1,000,000 or more.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to any state officer, institution, or agency.

SECTION BY SECTION ANALYSIS

[While the statutory reference in this bill is to the Texas Natural Resource Conservation Commission (TNRCC), the following amendments affect the Texas Commission on Environmental Quality, as the successor agency to TNRCC.]

SECTION 1. Amends Subchapter C, Chapter 341, Health and Safety Code, by adding Section 341.0357, as follows:

Sec. 341.0357. PUBLIC SAFETY STANDARDS. (a) Defines "public utility," "regulatory authority," and "residential area."

(b) Requires a regulatory authority for a public utility by rule or ordinance to adopt standards for maintaining sufficient water pressure for service to fire hydrants adequate to protect public safety in residential areas in a municipality with a population of 1,000,000 or more.

(c) Requires the Texas Natural Resource Conservation Commission (TNRCC) to assess residential areas in a municipality with a population of 1,000,000 or more to ensure that the regulatory authority for the area has adopted the standards required by this section, and all public utilities serving the residential area are complying with those standards.

(d) Requires TNRCC to require a municipality with a population of 1,000,000 or more and acting as a regulatory authority to make appropriate revisions to standards TNRCC considers to be inadequate within a reasonable time established by TNRCC.

(e) Requires TNRCC to require a public utility in violation of a standard required under this section and established by TNRCC or by a municipality with a

population of 1,000,000 or more and acting as a regulatory authority to comply with the standard within a reasonable time established by TNRCC.

(f) Provides that this section does not limit the authority of a municipality with a population of 1,000,000 or more and acting as a regulatory authority to prohibit a public utility in violation of a standard established by the municipality from recovering through the public utility's rates a penalty or fine incurred for a violation of a standard.

SECTION 2. Amends section 341.040, Health and Safety Code, to redefine "commission."

SECTION 3. Effective date: September 1, 2007.
