AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Office of Minority Health was created under the administration of the Texas Department of Health (TDH). After the reorganization of TDH into the Department of State Health Services (DSHS), the Office of Minority Health was redesignated and reorganized as the Office for the Elimination of Health Disparities (office) to identify and work through existing programs to address disparities in certain programs relating to multicultural, disadvantaged, and regional populations. The office has found that many of the existing programs relating to health disparities exist in the Health and Human Services Commission (HHSC) rather than DSHS. A report by the office to the 80th Legislature recommended that the office be moved to HHSC under the administration of the executive commissioner of the Health and Human Services Commission (executive commissioner).

H.B. 1396 transfers the office to the executive commissioner and establishes its authority. This bill also moves the health disparities task force to HHSC from DSHS and sets forth its purpose and duties.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
