AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

TRICARE health network is a common health care provider for military personnel and their families. In certain areas in the state TRICARE is lacking physician participation. This problem can be especially difficult on military families when there is a need for a medical specialist. Military personnel and families can opt to apply for Medicaid since many meet the income eligibility requirements for Medicaid. A 45-day waiting period is typical when applying for Medicaid and if the application is approved the benefits are granted retroactively. However, during the 45-day waiting period, an applicant is required to pay medical costs out of pocket.

C.S.H.B. 1633 expedites the approval process for military families waiting to be approved for the medical assistance program.
