AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, Section 1131.802 (Extension of Group Life Insurance Coverage to Spouses and Children; Eligible Children), Insurance Code, defines "dependent," for the purposes of eligibility under a group life insurance policy, to include a natural or adopted child younger than 21, or such a child older than 21 years of age if the child is enrolled as a full-time student at an educational institution or is physically or mentally disabled and under the parents' supervision. Therefore, children who are 21 years of age are not included, creating a coverage gap for that one-year period.

H.B. 2549 authorizes a carrier issuing group life coverage to extend coverage to a natural or adopted child of an insured person who is unmarried and younger than 25 years of age or physically or mentally disabled and under the parents' supervision, or to a natural or adopted grandchild of an insured person who is unmarried, younger than 25 years of age, and a dependent of the insured person for federal income tax purposes at the time the application for coverage of the grandchild is made. This bill would allow dependent coverage at the insured policyholder's request that is consistent with coverage provided by accident and health policies.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
