### AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, many of the volunteer firefighters and volunteer police force members must pay medical expenses for injuries that occur while in the line of duty. While the public does show its gratitude for these members of society who volunteer their time and efforts to protect others, it is often overlooked that individuals injured in the course of protecting the public must pay for their health care costs out of pocket or rely on pre-existing medical insurance to cover their expenses.

H.B. 2667 adds audit costs for worker's compensation claims to the uses for which the rural volunteer fire department insurance fund is authorized to be used. This bill also defines "volunteer police force member" and requires insurance coverage for those persons.
