AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, law enforcement agencies create their own peace officer identification cards, as there is no state standard for such cards. This has led to inconsistency regarding the information on and the quality of the cards. A recent increase in the number of cases of persons impersonating a peace officer have exacerbated this problem, highlighting the ease with which these cards are forged or altered. Efforts to increase homeland security have also served to highlight the problem.

C.S.H.B. 3613 creates a statewide standard for peace officer identification cards, including identification cards for reserve law enforcement officers and honorably retired peace officers. The bill also provides such a standard for port pilot identification cards.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
